"All reference to Patent No. 5,342,735 to Koji Nozaki of Japan for 'PHOTORESIST COMPOSITIONS CONTAINING A COPOLYMER OF AN ALIPHATIC POLYCYCLIC MONOMER HAVING ALPHA, BETA-UNSATURATED NITRILE WITH ANOTHER POLYERMIZABLE MONOMER' appearing in the *Official Gazette* of August 30, 1994 should be deleted since no patent was granted."

Notice of Change in Registration Examination Dates

In view of the rapidly growing number of individuals applying to take the registration examination, the increased investigation workload in the Office of Enrollment and Discipline, and the constraints on the U.S. Patent and Trademark Office for funding and staffing, the examination scheduled for May of 1995 will be the only examination given in calendar year 1995. At this time, it is anticipated that only one examina-

tion will be given in subsequent calendar years 1996, 1997 and 1998 and that the examination in each of these calendar years is tentatively scheduled to be held on the third Wednesday of August.

For further information, contact the Office of Enrollment and Discipline by writing to the following address: U.S. Patent and Trademark Office, Box OED, Washington, D.C. 20231.

37 CFR Part 1
[Docket No. 940965 - 4265]

RIN: 0651-AA67

Revision of Affidavits Under 37 CFR 1.131

Agency: Patent and Trademark Office, Commerce
Action: Notice of proposed rulemaking
Summary: The Patent and Trademark Office (Office) proposes to amend the rules of practice relating to submission of affidavits or declarations under 37 CFR 1.131 (a) to implement the relevant provisions of Public Law No. 103 - 182 and the GATT (General Agreement on Trade and Tariffs), and to provide relief in certain circumstances where a common assignee holds both an application and a patent claiming patentably indistinct, but not identical, inventions.
Date: Written comments must be submitted on or before December 1, 1994. No oral hearing will be held.
Addressees: Address written comments to the Commissioner of Patents and Trademarks, Washington, D.C. 20231, Attention: Charles E. Van Horn, Deputy Assistant Commissioner for Patent Policy and Projects, or by fax to (703) 305-8825.
For Further Information Contact: Charles E. Van Horn by telephone at (703) 305-9054 or Hiram Bernstein by telephone at (703) 305-9282 or by mail marked to the attention of Charles E. Van Horn, Deputy Assistant Commissioner for Patent Policy and Projects, and addressed as above.
Supplementary Information: Public Law No. 103-182 (November 4, 1993) implementing the North American Free Trade Agreement (NAFTA), amended 35 U.S.C. 104 to provide that for the purpose of obtaining a patent, an applicant can show a date of invention in the United States, or in a NAFTA country which occurred after the date of implementation (i.e., December 8, 1993). Although GATT enabling legislation has not been passed, these proposed rule changes assume that it will be passed, and therefore changes to 37 CFR 1.131(a) similar to NAFTA would be required. See Article 27, paragraph 1, of the Agreement on Trade-related Aspects of Intellectual Property Rights, Including Trade in Counterfeit Goods, of the GATT. In the event that the GATT enabling legislation is not enacted when the final rules are published, the proposed rule changes relative to the GATT will be withdrawn.

The Office proposes to amend 37 CFR 1.131(a), which is currently limited to facts showing a completion of the invention in the United States, to allow for a submission of facts in an affidavit or declaration that show completion of the invention in a NAFTA or a World Trade Organization (WTO) Member country. The WTO is established under the GATT agreement to resolve disputes between signatories to the agreement. The facts presented must demonstrate completion of the invention prior to the effective date of a reference thought to bar the grant of a patent or the patentability of a claim in a patent under reexamination.

Additionally, the Office recognizes that there is a potential conflict between existing 37 CFR 1.131(a) and 37 CFR 1.602(a). Section 1.131(a) prohibits affidavits or declarations thereunder when the same patentable invention as defined in 37 CFR 1.601(n) (i.e., patentably indistinct inventions) is claimed. An interference under 35 U.S.C. § 135, rather than antedating under § 1.131(a), is generally the available remedy. However, 37 CFR 1.602(a) provides that when the applications or the application and patent are owned by a single party, interferences are not declared or continued unless good cause is shown. This can result in a hardship where there is an issued patent that can no longer be amended as by filing a continuation-in-part application. Where there are two or more pending applications, the conflict can be avoided by filing a continuation-in-part application incorporating the conflicting inventions in a single application.

The Office proposes to amend 37 CFR 1.131 to broaden its application to a single party where inventions of a pending application and a patent held by the party are patentably indistinct but not identical. Under the proposed additions to § 1.131, an affidavit or declaration could be filed by a party to avoid a 35 U.S.C. § 103 rejection based on a 35 U.S.C. §§ 102(a) or (e) patent owned by that party, where the patent claimed an invention that was patentably indistinct, but not identical to an invention claimed in an application or patent undergoing reexamination.

The proposed addition to § 1.131 would not affect the use of the issued patent in a rejection based on double patenting. However, where patentably indistinct but not identical inventions are claimed, a double patenting rejection can be avoided by filing an appropriate terminal disclaimer. In addition, petitions under § 1.183 will be entertained for waiver of § 1.131 requirements in appropriate instances where two pending applications claiming patentably indistinct but not identical inventions are held by a single party.

Discussion of Specific Rules:

Section 1.131(a), if amended to (a)(1) as proposed, would allow a § 1.131 affiant or declarant to rely upon facts occurring in a NAFTA or a WTO Member country to show completion of the invention. The term "domestic" would be changed to "U.S." The section is proposed to be amended from a single sentence to three sentences.

Section 1.131(a)(2), if added as proposed, would limit the availability of acts showing completion of the invention in a NAFTA or WTO Member country to those acts occurring subsequent to the effective date of the agreements.

Section 1.131(a)(3), if added as proposed, would allow a showing of prior invention to be made in a pending application or a patent that is undergoing reexamination where a single party holds both the application or patent undergoing reexamination and another patent where the claimed inventions were, at the time the later invention was made, both owned by the single party or subject to an obligation of assignment to that party. Further, in order to rely on proposed § 1.131(a)(3), the inventions claimed in the application or in the patent undergoing reexamination and in the other patent must not be identical as set forth in 35 U.S.C. § 102.

Other Considerations:

The proposed rule changes are in conformity with the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., Executive Order 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq. The Office of Management and Budget has determined that the proposed rule changes are not significant for the purposes of E.O. 12866.

The Assistant General Counsel for Legislation and Regulation of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the proposed rule changes will not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)), because the proposed rules would affect only a small number of applications and would provide a streamlined and simplified procedure, eliminating the need for requesting waiver of the rules.

The Patent and Trademark Office has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These rule changes will not impose any additional burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq.

Administrative practice and procedure, Inventions and patents, Lawyers, Reporting and record keeping requirements.

For the reasons set forth in the preamble, and pursuant to the authority granted to the Commissioner of Patents and Trademarks by 35 U.S.C. § 6, the Office proposes to amend Title 37 of the Code of Federal Regulations as set forth below, with deletions indicated by brackets ([ ]) and additions indicated by arrows (cb).

Part 1 - Rules of Practice in Patent Cases

1. The authority citation for 37 C.F.R., Part 1, would continue to read as follows:

Authority: 35 U.S.C. § 6, unless otherwise noted.

2. Section 1.131 is proposed to be amended by revising paragraph (a) to read as follows:

§ 1.131 Affidavit or declaration of prior invention to overcome cited patent or publication.

(a) c(1)b When any claim of an application or a patent under reexamination is rejected on reference to a [domestic] cU.S.b patent which substantially shows or describes but does not claim the same patentable invention, as defined in § 1.601(n), as the rejected invention, or on reference to a foreign patent or to a printed publication, [and] the inventor of the subject matter of the rejected claim, the owner of the patent under reexamination, or the person qualified under §§ 1.42, 1.43 or 1.47, [shall make] cmay overcome the patent or publication by filing an appropriateb oath or declaration c.b [as to] cThe oath or declaration must includeb facts showing a completion of the invention in this country cor in a NAFTA or WTO Member countryb before the filing date of the application on which the [domestic] cU.S.b patent issued, or before the date of the foreign patent, or before the date of the printed publication [, then][.] cWhen an appropriate oath or declaration is made,b the patent or publication cited shall not bar the grant of a patent to the inventor or the confirmation of the patentability of the claims of the patent, unless the date of such patent or printed publication is more than one year prior to the date on which the inventor's or patent owner's application was filed in this country.

c(a)(2) A date of completion of the invention may not be established under this section before December 8, 1993, in a NAFTA country, or before _____ in a WTO Member country other than a NAFTA country.

(a)(3) Notwithstanding the provisions of paragraph (a)(1), a showing may be made under this section where the inventions defined by a claim in an application or a patent under reexamination and by a claim in another U.S. patent are not identical as set forth in 35 U.S.C. 102, and where the inventions were, at the time the later invention was made, owned by the same person or subject to an obligation of assignment to the same person.b

Supplementary Information:
I. Amendments responsive to adoption of Public Law 103-182.

Several of the proposed amendments to the interference rules (i.e., 37 CFR §§ 1.601 *et seq.*) are responsive to Public Law 103-182, 107 Stat. 2057 (1993) (North American Free Trade Agreement Implementation Act), which amended 35 U.S.C. 104 to permit reliance on activities occurring in a "NAFTA country" to prove a date of invention. Paragraph (b) of § 104 as amended states that "the term 'NAFTA country' has the meaning given that term in section 2(4) of the North American Free Trade Agreement Implementation Act." That section of Public Law 103-182 has been codified at 19 U.S.C. 3301(4), which reads:

> (4) NAFTA country Except as provided in section 3332 of this title, the term "NAFTA country" means—
>
> (A) Canada for such time as the [North American Free Trade] Agreement is in force with respect to, and the United States applies the Agreement to, Canada; and
>
> (B) Mexico for such time as the Agreement is in force with respect to, and the United States applies the Agreement to, Mexico.

Accordingly, it is proposed to amend 37 CFR § 1.601 by adding a new paragraph (r) defining the terms "NAFTA country" and "non-NAFTA country" and to amend the following interference rules, which set forth the requirements for preliminary statements, so as to permit reliance on activities occurring in a NAFTA country: §§ 1.622(b), 1.623(a) , 1.624(a) and 1.628(b)(2).

37 CFR 1.684, which relates to the taking of testimony in a foreign country, is proposed to be deleted and reserved in view of proposed amendments to §§ 1.671 and 1.672. Section 1.671 is proposed to be amended by redesignating paragraph (h) as paragraph (i) and adding new paragraphs (h) and (j). New paragraph (h) would set forth the requirements for a motion under § 1.635 to compel testimony or the production of documents or things in a foreign country. New paragraph (j) would provide that the weight to be given testimony taken in a foreign country will be determined on a case-by-case basis. Little, if any, weight would be given to testimony taken in a foreign country unless the party taking the testimony proves by clear and convincing evidence (1) that giving false testimony in an interference proceeding is punishable as perjury under the laws of the foreign country where the testimony is taken and (2) that the punishment in a foreign country for giving such false testimony is similar to the punishment for perjury committed in the United States. The proposed amendments to § 1.672 include amending paragraphs (a) and (b), redesignating current paragraphs (c) through (f) as paragraphs (e) through (h) and adding new provisions identified as paragraphs (c) and (d). Paragraph (a) as proposed to be amended would limit a party's case-in-chief testimony to affidavits, except where testimony is to be compelled under 35 U.S.C. 24 or compelled from a party or in a foreign country. New paragraph (c) would provide that where an opponent objects to the admissibility of any evidence contained in or submitted with an affidavit, the opponent must file and serve objections stating with particularity the nature of the objection, to which the party may respond by filing supplemental affidavits and supplemental official records and printed publications. New paragraph (c) further would provide that any objections to the admissibility of any evidence contained in or submitted with a supplemental affidavit shall be by a motion to suppress under § 1.656(h). New paragraph (d) of § 1.672 would require any cross-examination of affiants to be by deposition within the United States, which is defined in current § 1.601(p) as the United States of America, its territories and possessions. New paragraph (d) of § 1.672 would require that the party whose witness is to be cross-examined notice the deposition under § 1.673(e), obtain a court reporter and provide a translator if the witness will not testify in English. Although not set forth in the proposed rules, any party attending the deposition can bring its own translator or the parties can agree to share the cost of single mutually agreeable translator. Paragraphs (g) and (h) of § 1.671 as proposed to be amended would provide that a party seeking to compel testimony or production of documents or things pursuant to 35 U.S.C. 24 or to compel testimony or production from a party or in a foreign country would have to first file a § 1.635 motion to obtain permission from an administrative patent judge. A motion to compel testimony or the production of documents or things in a foreign country would have to show that the witness has been asked to testify in the United States and has refused to do so or that the individual or entity having possession, custody, and control of the document or thing has refused to produce the document or thing in the United States, even though the moving party has offered to pay the expenses involved in bringing the witness or the document or thing to the United States. When permission has been obtained from the administrative patent judge, the party, after also complying with the current requirements for an oral conference (§ 1.673(g)) and service of documents and a proffer of access to things (§ 1.673(b)), would be required to notice the deposition under § 1.673(a).

Section 1.616 is proposed to be amended by adding a paragraph (c) stating that to the extent that any information under the control of an individual or entity located in a NAFTA country concerning knowledge, use, or other activity relevant to proving or disproving a date of invention has been ordered to be produced by an administrative patent judge or the Board (§ 1.671(h)), but is not produced for use in the interference to the same extent as such information could be made available in the United States, the administrative patent judge or the Board shall draw such adverse inferences as may be appropriate under the circumstances, or take such other action permitted by statute, rule, or regulation, in favor of the party that requested the information in the interference, including imposition of appropriate sanctions under § 1.616(a).

Section 1.647, which currently requires a party who relies on a non-English language document to provide an English-language translation and an affidavit attesting to its accuracy, is proposed to be amended to extend these requirements to non-English language documents that a party is required to produce via discovery (see § 1.671(h)).

II. Attorney fees and expenses.

Section 1.616 is proposed to be amended by redesignating current paragraphs (a) through (e) as paragraphs (a)(1) through (a)(4) and (a)(6) and adding a new paragraphs (a)(5) and (b).

New paragraph (a)(5) would authorize the award of compensatory (as opposed to punitive) expenses and/or attorney fees as a sanction for failing to comply with the rules or an order, since there are occasions when such a sanction would be more commensurate in scope with the infraction than the sanctions that are currently authorized. New paragraph (b) would authorize the imposition of a sanction, including a sanction in the form of compensatory expenses and/or attorney fees, against a party for taking or maintaining a frivolous position.

III. Certificates of prior consultation.

Paragraph (b) of § 1.637 currently requires that a miscellaneous motion under § 1.635 contain a certificate stating that the moving party has conferred with all opponents in a good faith effort to resolve by agreement the issues raised by the motion and indicating whether any other party plans to oppose the motion. It is proposed to amend paragraph (b) to extend the requirement for such a certificate to motions filed under §§ 1.633 and 1.634 and also to require the certificate to indicate that the reasons and facts in support of the motion were discussed with each opponent and, if an opponent has indicated that it will oppose the motion, to identify the issues and/or facts believed to be in dispute. The proposed requirement for consultation should result in a reduction in the number of issues raised by motions under § 1.633 and 1.634 as well as a reduction in the number of motions filed under those rules.

IV. Service of a "developing record."

In addition to the amendments to § 1.672 discussed above under the heading "Amendments responsive to adoption of Public Law 103-182," it is proposed to amend §§ 1.672, 1.682, 1.683 and 1.688 to require each party to serve on each opponent a "developing record" that will evolve into the record required to be filed under § 1.653. Specifically, in § 1.672, it is proposed to amend paragraph (b) to provide that a party presenting testimony of a witness by affidavit shall, no later than the time set by the administrative patent judge for serving affidavits, file (which includes serve) the affidavit, whether it is a new affidavit or an affidavit that was previously filed by that party during *ex parte* prosecution of an application or under § 1.608 or 1.639(b).

Sections 1.682, 1.683 and 1.688 are proposed to be amended to parallel the proposed amendments to § 1.672. Specifically, paragraph (a) of § 1.682 as proposed to be amended would provide that a party may introduce into evidence, if otherwise admissible, an official record or printed publication not identified in an affidavit or on the record during an oral deposition of a witness, by filing (which includes serving) a copy of the official record or publication no later than the time set for filing affidavits under § 1.672(b), thereby dispensing with the current requirement to file a notice of intent to rely on the official record or printed publication. In § 1.683, paragraph (a) as proposed to be amended would provide that a party may introduce into evidence, if otherwise admissible, testimony by affidavit or oral deposition from another interference, proceeding, or action involving the same parties by filing (which includes serving) a copy of the affidavit or a copy of the deposition transcript no later than the time set for filing affidavits under § 1.672(b), thereby dispensing with the current requirement for a party to file a motion under § 1.635 for leave to rely on such testimony. Section 1.688 as proposed to be amended would provide that, if otherwise admissible, a party may introduce into evidence an answer to a written request for an admission or an answer to a written interrogatory obtained by discovery under § 1.687 by filing a copy of the request for admission or the written interrogatory and the answer no later than the time set for filing affidavits under § 1.672(b). Thus, all evidence filed under §§ 1.672, 1.682, 1.683 and 1.688 that relates to a party's case-in-chief should be filed together no later than the date set by an administrative patent judge for the party to serve affidavits under § 1.672(b) for its case-in-chief and all evidence under those sections that relates to the party's rebuttal should be filed no later than the date set for the party to serve affidavits under § 1.672(b) for its case-in-rebuttal.

The pages of all affidavits and deposition transcripts would be required to have sequential numbers that would also serve as the record page numbers for the affidavits and transcripts in the party's record when it is filed under § 1.653. Likewise, the exhibits identified in the affidavits and deposition transcripts and any official records and printed publications served under § 1.682(a) would be required to have sequential numbers which would serve as the exhibit numbers when the exhibits are filed with the party's record. Affidavits and § 1.683(a) testimony would have to be accompanied by an index giving the name of each witness and the number of the page where the testimony of each witness begins. The exhibits would have to be accompanied by an index briefly describing the nature of each exhibit and giving the number of the page of affidavit or § 1.683(a) testimony where each exhibit identified in an affidavit or during an oral deposition is first identified and offered into evidence.

An opponent who objects to the admissibility of any evidence filed under §§ 1.672(b), 1.682(b), 1.683(a) and 1.688(a) would have to file objections under §§ 1.672(c), 1.682(c), 1.683(b) and 1.688(b) no later than the date set by the administrative patent judge for filing objections to affidavits under paragraph § 1.672(c). An opponent who fails to challenge the admissibility of the evidence on a ground that could have been raised in a timely objection under §§ 1.672(c), 1.682(c), 1.683(b) or 1.688(b) would not be permitted to move under § 1.656(h) to suppress the evidence on that ground. If an opponent timely files an objection to evidence filed under §§ 1.672(b), 1.682(b), 1.683(a) or 1.688(a), the party may respond by filing supplemental affidavits and, in the case of objections to evidence filed under §§ 1.672(b), 1.682(b) and 1.683(a), may also file supplemental official records and printed publications. No objection to the admissibility of supplemental evidence shall be made, except as provided by § 1.656(h). The page numbers of the supplemental affidavits would be sequentially numbered beginning with the number following the last page number of the testimony served under §§ 1.672(b), 1.683(a) and 1.688(a). Likewise, any additional exhibits identified in the supplemental affidavits and any supplemental official records and printed publications would be given sequential numbers beginning with the number following the last number of the previously identified exhibits. After the time expires for filing objections and supplemental affidavits, or earlier when appropriate, the administrative patent judge would set a time within which any opponent may file a request to cross-examine an affiant on oral deposition.

If any opponent requests cross-examination of an affiant, the party shall notice a deposition at a reasonable location within the United States under § 1.673(e) for the purpose of cross-examination. Any redirect and recross shall take place at the deposition. Within 45 days of the close of the period for taking cross-examination (§ 1.678 is proposed to be amended to change the time for filing certified transcripts from 45 days to 30 days), the party would serve (but not file) a copy of each deposition transcript on each opponent together with copies of any additional documentary exhibits identified by a witness during a deposition. The pages of the transcripts served under this paragraph and the accompanying exhibits would be sequentially numbered in the manner discussed above. The deposition transcripts would be accompanied by an index of the names of the witnesses, giving the number of the page where cross-examination, redirect and recross of each witness begins, and an index of exhibits of the type specified in § 1.672(b). At this point in time, the opponent will have been served with all of the testimony that will appear in the party's record (with the same page numbers) as well as all of the documentary exhibits that will accompany the record (with the same exhibit numbers).

Since the proposed amendments to § 1.672 would require a party, during its testimony period, to file all affidavits on which it intends to rely at final hearing, it is proposed to delete as unnecessary paragraph (e) of § 1.671, which requires a party to give notice of intent to rely on an affidavit filed by that party during *ex parte* prosecution of an application or an affidavit under § 1.608 or 1.639(b).

V. Withdrawal of previous notices.

Some of the clarifying and housekeeping amendments proposed in part VI below originally appeared in the same or similar form in two previous notices of proposed rulemaking, which are hereby withdrawn:

(a) RIN:0651-AA53 — "Patent Interference Practice - Notice of Proposed Rulemaking," 57 Fed Reg 2698 (Jan. 23, 1992), *reprinted in* 1135 Off. Gaz. Pat. Office 37 (Feb. 11, 1992); and

(b) RIN:0651-AA66 — "Patent Interference Practice - Separate Patentability of Claims," 58 Fed. Reg. 39704 (July 26, 1993), reprinted in 1153 Off. Gaz. Pat. Office 59 (Aug. 17, 1993).

VI. Miscellaneous amendments.

Throughout the rules, the term "examiner-in-chief" has been replaced by "administrative patent judge" to reflect the change in the title of the members of the Board. See Commissioner's Notice of October 13, 1993, *published as* "New Title for Examiners-in-Chief," 1156 Off. Gaz. Pat. Office 332 (Nov. 9, 1993).

In § 1.11, it is proposed to amend paragraph (e) to allow access to the file of an interference involving a reissue application once the interference has terminated or an award of priority or judgment has been entered as to all counts. Although it was intended that the public have access to any interference that involves a case which is open to the public and § 1.11(b) provides that a reissue application is open to the public, interferences involving reissue applications were inadvertently not included in current § 1.11(e).

In § 1.192, which specifies the contents of the brief of an appellant for final hearing in an *ex parte* appeal, it is proposed to amend paragraph (a) in three respects. The first proposal is to simplify the language used to refer to a brief filed by an applicant who is not represented by a registered practitioner. The second is to delete the requirement that such a brief be in substantial compliance with the requirements of paragraphs (c)(1), (2), (6) and (7), because experience has shown that it is better to evaluate such briefs on a case-by-case basis. The third is to codify the "good cause" standard that is currently used to determine whether the Board will consider any arguments or authorities not included in the brief. It is proposed to make clarifying amendments to paragraphs (c), (c)(5) and (c)(5) (ii), to redesignate current paragraphs (c)(1) through (c)(7) as paragraphs (c)(3) through (c)(9), and to add new paragraphs (c)(1) and (c)(2) that would require an appellant who has filed an appeal to the Board to identify the real party in interest and any related appeals and interferences. The proposed requirement to identify the real party in interest is derived from Federal Circuit Rule 47.4 and Federal Circuit Form 7. For some time, it has been necessary to know the identity of the real party in interest. This information would permit members of the Board to comply with ethics regulations associated with working on matters in which the member has an interest. The proposed requirement to identify related appeals and interferences is derived in part from Federal Circuit Rule 47.5 and, if adopted, would prevent the Board from entering inconsistent decisions in related cases.

Section 1.601 is proposed to be amended in several ways. Paragraph (f) as proposed to be amended would specify that a count should be sufficiently broad as to encompass the broadest corresponding patentable claim of each of the parties without being so broad as to be unpatentable over the prior art and also to indicate that a phantom count is unpatentable to all parties under the written description requirement of the first paragraph of 35 U.S.C. 112. Paragraph (g) as proposed to be amended would broaden the definition of "effective filing date" to mean the actual filing date when the involved application or patent is not entitled to the benefit of the filing date of an earlier application. Specifically, paragraph (g) would provide that the effective filing date of an application is the filing date of an earlier application accorded to the application under 35 U.S.C. 119, 120, 121 or 365, or, if no benefit is accorded, the filing date of the application. The effective filing date of a patent would be defined as the filing date of an earlier application accorded to the patent under 35 U.S.C. 120, 121, or 365(c) or, if no benefit is accorded, the filing date of the application which matured into the patent. The reference to 35 U.S.C. 121 is included to eliminate any doubt that a divisional application may be entitled to an earlier filing date in accordance with 35 U.S.C. 121.

Paragraph (j) is proposed to be amended by changing "which" to "that." Paragraph (l) is proposed to be amended by changing "assignee" to "assignee of record in the Patent and Trademark Office." Paragraph (q) is proposed to be amended by deleting "a panel of" as superfluous.

Section 1.602 is proposed to be clarified by changing "within 20 days of" to "within 20 days after."

Sections 1.603 and 1.606 are proposed to be amended by deleting the third sentence ("Each count shall define a separate patentable invention.") as redundant in view of the identical sentence in § 1.601(f). In addition, it is proposed to clarify §§ 1.603 and 1.606 by amending them to require each application to contain, or be amended to contain, at least one patentable claim which corresponds to each count.

In section 1.604, it is proposed to amend paragraph (a)(1) by changing "his or her" to "its."

In § 1.605, it is proposed to amend paragraph (a) for clarification.

Section 1.606 is also proposed to be amended to note that the claim in the application need not be, and most often will not be, identical to a claim in the patent.

In § 1.607, it is proposed to amend paragraph (a)(4) by changing "his or her" to "its" and to add a new paragraph (a)(6) requiring an applicant seeking an interference with a patent to demonstrate compliance with 35 U.S.C. 135(b), which provides:

> A claim which is the same as, or for the same or substantially the same subject matter as, a claim of an issued patent may not be made in any application unless such a claim is made prior to one year from the date on which the patent was granted.

Requiring an applicant to show compliance with § 135(b) before an interference is declared will prevent an interference from being declared where the applicant cannot satisfy § 135(b) with respect to any claim alleged to correspond to the proposed count.

In § 1.608, it is proposed to amend paragraphs (a) and (b) in several respects. First, both paragraphs are proposed to be amended to delete the information about effective filing dates, which would appear instead in § 1.601(g) as proposed to be amended. Second, it is proposed to relax the current requirement of paragraph (a) for an affidavit filed by the applicant. Paragraph (a) as proposed to be amended would permit a statement to be filed by the applicant or a practitioner of record. Third, it is proposed to change "sufficient cause" in paragraph (b) and in other interference rules to "good cause" in order to make it clear that only one "cause" standard is intended. Fourth, it is proposed to change "8 1/2 x 11 inches (21.8 by 27.9 cm.)" to "21.8 by 27.9 cm. (8 1/2 x 11 inches)."

In § 1.609, it is proposed to amend paragraphs (b)(2) and (b)(3) to require the examiner's statement (i.e., the form PTO-850, also known as the initial interference memorandum) to explain why each claim designated as corresponding to a count is directed to the same patentable invention as the count and why each claim designated as not corresponding to a count is not directed to the same patentable invention as the count. The proposed amendment, if adopted, would provide the Board and the parties with the benefit of the examiner's reasoning and would provide a better foundation for considering preliminary motions to designate claims as corresponding or as not corresponding to a count.

In § 1.610, it is proposed to amend paragraph (a) by deleting the language "a panel consisting of at least three members of" as superfluous and by deleting the reference to § 1.640(e), which is proposed to be amended to allow a request for reconsideration under § 1.640(c) to be decided by an individual administrative patent judge rather than by the Board. It is further proposed to amend paragraph (b) by deleting "Unless otherwise provided in this section," as unnecessary in light of the proposed amendment to paragraph (a).

Section 1.611 is proposed to be amended by redesignating paragraph (a)(8) as paragraph (a)(9) and adding a new paragraph (a)(8) requiring that a notice of declaration of interference indicate why each claim designated as corresponding to a count is directed to the same patentable invention as the count and why each claim designated as not corresponding to a count is not directed to the same patentable invention as the count. This information should assist the parties in deciding whether to move to have claims designated as corresponding or not corresponding to the count. An administrative patent judge can satisfy this requirement by enclosing a copy of the examiner's statement with the parties' copies of the declaration notice. It is also proposed to capitalize the first word in each of paragraphs (d)(2) and (d)(3).

In § 1.612, it is proposed to amend paragraph (a) to change "opposing party's" to "opponent's" and to add a sentence referring to § 1.11(e) concerning public access to interference files.

In § 1.614, it is proposed to clarify the meaning of paragraph (a) by changing "the Board shall assume jurisdiction" to "the Board acquires jurisdiction."

In § 1.616, in addition to authorizing an award of compensatory attorney fees and expenses in appropriate circumstances, as discussed above, it is proposed to amend current paragraph (b) (which is proposed to be redesignated as paragraph (a)(2)) to permit a party to be sanctioned for failing to comply with the rules or an order by entering an order precluding the party from filing any type of paper. Paragraph (b) currently permits entry of an order precluding the filing of a motion or a preliminary statement.

Section 1.617 is proposed to be amended to authorize a party against whom a § 1.617(a) order to show cause has been issued to respond with an appropriate preliminary motion under § 1.633(c), (f) or (g). A preliminary motion under § 1.633(c) to redefine the interference, under § 1.633(f) for benefit of the filing date of an earlier application or under § 1.633(g) attacking the benefit accorded a patentee may be appropriate where the count set forth in the notice declaring the interference is not the same as the count proposed in the applicant's showing under § 1.608(b). A preliminary motion under § 1.633(f) or (g) may also be appropriate where the count set forth in the notice declaring the interference is the same as the count proposed in the applicant's showing under § 1.608(b), but the notice either fails to accord the applicant the benefit of the filing date of an earlier application whose benefit was requested in the § 1.608(b) showing or accords the patentee the benefit of the filing date of an earlier application whose benefit the § 1.608(b) showing argued should not be accorded the patentee.

In § 1.618, it is proposed to amend paragraph (a) for clarification and to state that a paper that has been returned as unauthorized will not thereafter be considered in the interference. Paragraph (a) currently states that a paper that has been returned as unauthorized will not thereafter be considered by the Patent and Trademark Office.

In § 1.625, it is proposed to simplify paragraph (a) by deleting "the invention was made in the United States or abroad and" as surplusage. Section 1.626 is proposed to be simplified by changing "earlier application filed in the United States or abroad" to "earlier filed application." The same change is proposed for §§ 1.630, 1.633(f), 1.633(g) , 1.637(c)(1)(vi) , 1.637(e)(1)(viii) , 1.637(e)(2)(vii) and 1.637(h)(4).

In § 1.628, it is proposed to amend paragraph (a) by changing "ends of justice" to "interest of justice" to be consistent with the language used in §§ 1.628(a) and 1.687(c), since a single standard is intended. Paragraph (a) of § 1.628 is also proposed to be amended to apply the "interest of justice" requirement only to corrected preliminary statements that are filed on or after the due date for serving preliminary statements. Where the moving party has not yet seen the opponent's statement, an opponent will not normally be prejudiced by the filing of a corrected statement.

In § 1.629, it is proposed to amend paragraphs (a), (c)(1) and (d) to make them consistent with the proposed amendment of the definition of "effective filing date" in § 1.601(g).

In § 1.631, it is proposed to amend paragraph (a) to delete "by the examiner-in-chief" (second occurrence) as superfluous.

Section 1.632 is proposed to be amended to more precisely state that a notice of intent to argue abandonment, suppression or concealment must be filed "within ten days after," rather than "within ten days of," the close of the testimony-in-chief of the opponent.

In § 1.633, it is proposed to amend paragraph (a) to specify that a claim shall be construed in light of the specification of the application or patent in which it appears. This amendment would administratively set aside the judicially created rule of *In re Spina*, 975 F.2d 854, 856, 24 USPQ2d 1142, 1144 (Fed. Cir. 1992), to the extent it held that the interference rules require that an ambiguous claim copied from a patent for interference purposes be construed in light of the disclosure of the patent. A claim that has been added to a pending application for any purpose, including to provoke an interference, would be given the broadest reasonable interpretation consistent with the disclosure of the application to which it is added, as are claims which are added during *ex parte* prosecution. As explained *In re Zletz*, 893 F.2d 319, 321, 13 USPQ2d 1320, 1322 (Fed. Cir. 1989),

> [d]uring patent examination the pending claims must be interpreted as broadly as their terms reasonably allow. When the applicant states the meaning that the claim terms are intended to have, the claims are examined with that meaning, in order to achieve a complete exploration of the applicant's invention and its relation to the prior art. *See In re Prater*, 415 F.2d 1393, 1404-05, 162 USPQ 541, 550-51 (CCPA 1969) (before the application is granted, there is no reason to read into the claim the limitations of the specification). The reason is simply that during patent prosecution when claims can be amended, ambiguities should be recognized, scope and breadth of language explored, and clarification imposed. *Burlington Industries, Inc. v. Quigg*, 822 F.2d 1581, 1583, 3 USPQ2d 1436, 1438 (Fed. Cir. 1987); *In re Yamamoto*, 740 F.2d 1569, 1571, 222 USPQ 934, 936 (Fed. Cir. 1984).

If a party believes an opponent's claim corresponding to the count is ambiguous when construed in light of the opponent's disclosure, the party should move under § 1.633(a) for judgment against the claim on the ground of unpatentability under the second paragraph of 35 U.S.C. 112. In paragraph (a), it is also proposed to delete "by reference to the prior art of record" as unnecessary.

Paragraphs (a)(1) and (a)(2) of § 1.633 are proposed to be amended by deleting some unnecessary language from each paragraph and by changing "derivation" to "Derivation" in paragraph (a)(2). Paragraph (b), which concerns motions for judgment on the ground of no interference-in-fact, is proposed to be amended by stating that it is possible for claims of opponents presented in "means plus function" format to define separate patentable inventions even though the claims of the opponents contain the same literal wording. The reason is that the sixth paragraph of 35 U.S.C. 112, which is applicable to "means plus function" limitations in application claims and patent claims, provides that such limitations are to be construed as covering the corresponding structure disclosed in the associated application or patent and equivalents thereof. *In re Donaldson Co.*, 16 F.3d 1189, 29 USPQ2d 1845 (Fed. Cir. 1994).

Paragraph (i) of § 1.633 in its current form authorizes a party who opposes a preliminary motion under § 1.633(a), (b) or (g) to file a preliminary motion under § 1.633(c) or (d). It is proposed to amend paragraph (i) to additionally authorize a party-patentee to file a preliminary motion under § 1.633(h) to add to the interference an application for reissue of the party's involved patent. Because a reissue application can include an amended or new claim to be designated as corresponding to a count, the proposed amendment would give a patentee an option similar to that afforded in the same situation to a party-applicant, who can file a preliminary motion under § 1.633(c)(2) to amend a claim in, or add a claim to, its involved application to be designated as corresponding to a count.

In § 1.637, it is proposed to amend paragraph (a) to incorporate the substance of the Notice of the Chairman of the Board of Patent Appeals and Interferences of August 10, 1990, *published as* "Interferences - Preliminary Motions for Judgment," 1118 Off. Gaz . Pat. Office 19 (Sept. 11, 1990). Paragraph (a) as proposed to be amended would state that where a party files a preliminary motion for judgment against an opponent under § 1.633(a) based on unpatentability over prior art having a date that appears to make the prior art equally applicable to the moving party, it will be presumed, without regard to the dates alleged in the preliminary statement of the party, that the cited prior art is also applicable to the party unless there is included with the motion an explanation, and evidence if appropriate, as to why the prior art does not apply to the party. The proposed amendment differs from the notice bv providing that if the motion fails to include a sufficient explanation or evidence, the party will not be permitted to rely on any such explanation or evidence in response to or in any subsequent action in the interference. The notice had directed the administrative patent judge to request a satisfactory explanation from the party, a procedure which results in delaying a decision on the preliminary motion. Paragraph (a) is further proposed to be clarified by changing "Every" in the second sentence to "Each."

Paragraph (c)(1) of § 1.637 sets forth the requirements for a preliminary motion to add or substitute a proposed count. It is proposed to amend paragraph (c)(1)(v) in two respects. The first is to require a moving party to show that the proposed count is patentable over the prior art. The second is to specify that a proposed substitute count need only be shown to be

patentably distinct from the other counts proposed to remain in the interference, since a proposed substitute count need not be patentably distinct from the count it is to replace. Paragraph (c)(1)(vi) is proposed to be amended to clarify that a preliminary motion under § 1.633(c)(1) need not be accompanied by a preliminary motion for benefit under § 1.633(f) unless the moving party seeks benefit with respect to the proposed count. It is also proposed to add a new paragraph (c)(1)(vii) specifying that where an opponent is accorded the benefit of the filing date of an earlier filed application in the notice of declaration of the interference, the moving party must show why the opponent is not also entitled to benefit of the filing date of the earlier filed application with respect to the proposed count. Otherwise, the opponent will be presumed to be entitled to the benefit of the earlier filed application with respect to the proposed count. The amendment would eliminate the need for an opponent to respond to a § 1.633(c)(1) motion with a preliminary motion under § 1.633(f) claiming benefit, which has the effect of delaying a decision on the § 1.633(c)(1) motion.

Paragraphs (c)(2)(ii) and (iii) of § 1.637 are proposed to be amended for clarification. Paragraphs (c)(2)(iv) and 1.637(c)(3)(iii), which relate to § 1.633(f) motions for benefit, are proposed to be deleted and reserved as unnecessary, since motions under § 1.633(c)(2) and (3) do not affect the count. Paragraph (c)(3)(ii), which applies to motions under § 1.633(c)(3) to designate a claim as corresponding to a count, is proposed to be amended to have claims compared to claims, as is the case in § 1.633(c)(4)(ii), which applies to motions filed under § 1.633(c)(4) to designate a claim as not corresponding to a count. The proposed amendment avoids the need to compare claims to counts, which are subject to different rules of construction than are claims.

Paragraph (c)(4)(ii) of § 1.637 is proposed to be amended to require that a party moving to designate a claim as not corresponding to a count must show that the claim could not serve as the basis for a preliminary motion under § 1.633(c)(1) to add a new count. The proposed amendment, if adopted, would preclude a party from moving to designate one of its claims as not corresponding to the count where an opponent's disclosure would support a similar claim, in which case the party could file a § 1.633(c)(1) preliminary motion proposing a claim to be added to the opponent's application and suggesting that the proposed claim and the party's claim in question be designated as corresponding to a proposed new count.

Paragraph (d)(4) of § 1.637, which authorizes a party to file a motion for benefit together with a motion under § 1.633(d), is proposed to be deleted and reserved as unnecessary, because motions filed under § 1.633(d) do not affect the count. Paragraphs (e)(1)(viii) and (e)(2)(vii) are proposed to amended to make it clear that a preliminary motion under § 1.633(e)(1) or (2) need not be accompanied by a preliminary motion for benefit under § 1.633(f) unless the moving party seeks benefit with respect to the proposed count. Paragraphs (e)(1)(ix) and (e)(2)(viii) are proposed to be added to specify that where an opponent is accorded the benefit of the filing date of an earlier filed application in the notice of declaration of the interference, the moving party must show why the opponent is not entitled to benefit of the earlier filed application with respect to the proposed count; otherwise, the opponent will be presumed to be entitled to benefit of the earlier filed application with respect to the proposed count. Paragraph (f)(2) of § 1.637 is proposed to be amended to change "abroad" to "in a foreign country" and to delete both occurrences of "filed abroad" as superfluous.

Paragraph (h) of § 1.637 is proposed to be amended to explain that a preliminary motion to add a reissue application that includes a new or amended claim to be designated as *not* corresponding to a count will be given the same treatment as a preliminary motion proposing to amend a claim in, or add a new claim to, an involved application to be designated as not corresponding to the count, i.e., the preliminary motion will be dismissed. *See L'Esperance v. Nishimoto*, 18 USPQ2d 1534, 1537 (Bd. Pat. App. & Int. 1991) (interference rules do not authorize a motion by party-applicant to amend or add a claim to be designated as not corresponding to the count).

In § 1.638, it is proposed to amend paragraph (b) for clarification by changing "a reply" to "any reply."

In § 1.639, it is proposed to amend paragraph (a), which requires that a motion, opposition or reply be accompanied by the evidence on which a party intends to rely in support of or in opposition to a motion, to be consistent with paragraphs (c) through (g), which permit some types of evidence to be filed after filing of the motion, opposition or reply. It is also proposed to amend paragraph (d)(1) by changing "call" to "use."

In § 1.640, it is proposed to amend paragraph (b) in several respects. The first is to provide that a decision on a preliminary motion shall be deferred to final hearing unless an administrative patent judge or the Board is of the opinion that a decision on a preliminary motion will materially advance the resolution of the interference. The second is to state that a matter raised by a party in support of or in opposition to a motion that is deferred to final hearing will not be entitled to consideration at final hearing unless the matter is raised in the party's brief at final hearing. It is also proposed to amend paragraph (b) to state that where the administrative patent judge determines that the interference shall proceed to final hearing on the issue of priority or derivation, a time shall be set for each party to file a paper identifying any decisions of the administrative patent judge that the party wishes to have reviewed at final hearing as well as identifying any deferred or belatedly filed motions that the party wishes to have considered at final hearing. Paragraph (b) as proposed to be amended would also require that any evidence a party wishes to have considered with respect to the decisions and motions to be considered or reviewed at final hearing, including any affidavits filed by the party under § 1.608(b) or 1.639(b), would have to be served on the opponent during the testimony-in-chief period of the party.

Paragraph (b)(1) of § 1.640 is proposed to be amended for clarification. Paragraph (b)(2), which currently states that a preliminary motion filed after a decision is entered on preliminary motions under § 1.633 will not be considered except as provided by § 1.655(b), is proposed to be amended to state that a preliminary motion filed after the time expires for filing preliminary motions will not be considered except as provided by § 1.645(b) by changing "1.655(b)" to "1.645(b)," which relates to consideration of belatedly filed papers in general.

Paragraph (c) of § 1.640, which currently requires an administrative patent judge or the Board to specificaily authorize an opposition to a request for reconsideration of a decision by an administrative patent judge, is proposed to be amended to authorize an opponent to file an opposition, thereby saving the administrative patent judge or the Board the time it would otherwise take to determine whether an opposition should be authorized. If adopted, the administrative patent judge would continue to have the authority to deny a request for reconsideration without waiting for an opposition. In order to conserve the resources of the Board, it is also proposed to delete the last sentence of § 1.640(c) so as to authorize a single individual administrative patent judge to decide a request for reconsideration. Paragraph (c) is also proposed to be amended to require that a request for reconsideration be filed by hand or Express Mail. Paragraph (d)(1), which currently states that an order to show cause under that section can be based on a decision on a motion which is dispositive of the interference against a party as to any count, is proposed to be amended to include decisions on dispositive matters raised sua sponte by an administrative patent judge.

Paragraph (e) of § 1.640 is proposed to be amended to incorporate the substance of the Deputy Commissioner's Notice of December 8, 1986, *published as* "Interference Practice: Response to Order to Show Cause Under 37 CFR 1.640," 1074 Off. Gaz. Pat. Office 4 (Jan. 6, 1987), *reprinted in* 1086 Off. Gaz. Pat. Office 282 (Jan. 5, 1988). Specifically, paragraph (e) as proposed to be amended would provide that where the order to show cause was issued under § 1.640(d)(1), the party may respond with a paper (i) requesting that final hearing be set to review the decision which is the basis for the order and identifying every other decision of the administrative patent judge that the party wishes to have reviewed by the Board at a final hearing, or (ii) fully explaining why judgment should not be entered. Any other party would be permitted to file a response to the paper within 20 days of the date of service of the paper. Where the order was issued under § 1.640(d)(1) and the paper includes a request for final hearing, the response must identify every decision of the administrative patent judge that the responding party wishes to have reviewed by the Board at a final hearing. Where the order was issued under § 1.640(d)(1) and the paper does not include a request for final hearing, the response may include a request for final hearing, which must

identify every decision of the administrative patent judge that the responding party wishes to have reviewed by the Board at a final hearing. Where only the response includes a request for a final hearing, the party who filed the paper would have 14 days from the date of service of the response in which to file a supplemental paper identifying any other decision of the administrative patent judge that the party wishes to have reviewed by the Board at a final hearing. The paper or the response thereto would have to be accompanied by a motion (§ 1.635) requesting a testimony period if a party wishes to introduce any evidence to be considered at final hearing (§ 1.671), such as affidavits previously filed under § 1.639(b). A request for a testimony period would be construed as including a request for final hearing. Where the paper contains an explanation of why judgment should not be entered in accordance with the order and no party has requested a final hearing, the decision that is the basis for the order would be reviewed based on the contents of the paper and the response. If the paper fails to show good cause, the Board would enter judgment against the party against whom the order issued.

Section 1.641 currently indicates that an administrative patent judge who, during the pendency of an interference, becomes aware of a reason why a claim designated to correspond to a count may not be patentable should notify the parties of the reason and set a time within which each party may present its views, which the administrative patent judge will consider in determining how the interference shall proceed. It is proposed to amend § 1.641 to indicate that a party's views may include argument or appropriate preliminary motions under § 1.633(c), (d) and (h), including any supporting evidence.

In § 1.643, it is proposed to amend paragraph (b) for clarification and also to change "ends of justice" to "interest of justice" to be consistent with the language used in other interference rules, including §§ 1.628(a) and 1.687(c).

In § 1.644, it is proposed to simplify paragraph (a) by changing "a panel consisting of more than one examiner-in-chief" to "the Board." Paragraphs (a)(1), (b) and (c) are proposed to be amended by changing both occurrences of "panel" to "Board." Paragraphs (a)(2) and (b) are proposed to be changed to provide that a petition seeking to invoke the supervisory authority of the Commissioner shall not be filed prior to the party's brief for final hearing; these paragraphs currently provide that such a petition shall not be filed prior to a decision of the Board awarding judgment.

Paragraph (b) of § 1.644 is proposed to be clarified by amending it to state that a petition under § 1.644(a) shall be considered timely if it is made as part of, or simultaneously with, a proper motion under § 1.633, 1.634, or 1.635 when granting the motion would require waiver of a rule. In other words, a petition under § 1.644(a)(2) must seek waiver of a rule prospectively rather than retroactively.

Paragraph (d) of § 1.644 is proposed to be amended to provide that the statement of facts in a petition preferably should be in numbered paragraphs and also to delete the second sentence as unnecessary. Paragraph (f) is proposed to be amended to change the "15 days" in which to request reconsideration of a decision by the Commissioner to "14 days." In paragraph (g), it is proposed to delete the quotation marks around "Express Mail."

Section 1.645, which in its current form permits consideration of a belatedly filed paper only if accompanied by a motion under § 1.635 which shows sufficient cause (§ 1.645(b)) why the paper was not timely filed, is proposed to be amended in several respects. First, it is proposed to change "sufficient cause" to "good cause" in order to use a single "cause" standard throughout the interference rules. Second, it is proposed to amend paragraph (b) to permit consideration of a belatedly filed paper if an administrative patent judge or the Board, sua sponte, is of the opinion that it would be in the interest of justice to consider the paper. An example would be where the delay is short (e.g., one day) and there is no prejudice to an opponent. For purposes of the sections other than § 1.645, a belatedly filed paper is considered "timely filed" if accompanied by a motion under § 1.635 which is granted.

Paragraph (d) of § 1.645 is proposed to be amended by deleting "In an appropriate circumstance" as superfluous in view of the language "may stay proceedings," which indicates that the administrative patent judge has the discretion to stay an interference.

In § 1.646, it is proposed to amend paragraph (a)(2) by deleting the reference to § 1.684, which is proposed to be deleted. It is proposed to amend paragraph (c)(1) by inserting "or causing a copy of the paper to be handed" after "By handing a copy of the paper" to make it clear that the paper need not be personally delivered by the party, i.e., that delivery by hand can effected by a commercial courier, for example. In paragraph (c)(4), it is proposed to change "mail" (second occurrence) to "first class mail" to make it clear that the service date specified in that paragraph applies only to first class mail. It is also proposed to redesignate paragraph (c)(5) as paragraph (c)(6) and to add a new paragraph (c)(5) which clarifies that a party may serve by Express Mail and that when service is effected by Express Mail, the date of service is considered to be the date of deposit with the U.S. Postal Service. Paragraph (d) is proposed to be amended to delete the quotation marks around "Express Mail." Paragraph (e) is proposed to be amended to state that the due date for serving a paper is the same as the due date for filing the paper in the Patent and Trademark Office.

In § 1.651, it is proposed to amend paragraph (a)(2) by deleting "(testimony includes testimony to be taken abroad under § 1.684)" in order to be consistent with the proposal to delete § 1.684. Paragraphs (c)(2) and (c)(3) are proposed to be amended to be consistent with the proposed amendment to the definition of "effective filing date" in § 1.601(g). In paragraph (d), it is proposed to change "abroad under § 1.684" to "in a foreign country."

In § 1.653, it is proposed to amend paragraph (a) in several ways. The first is to change the references to paragraphs of § 1.672 to be consistent with the proposed redesignation of certain paragraphs of § 1.672, discussed below. The second is to delete "of fact" in the clause "agreed statements of fact under § 1.672(f)" (proposed to be redesignated as § 1.672(h)), because agreed statements under § 1.672(f) can set forth either (1) how a particular witness would testify if called or (2) the facts in the case of one or more of the parties. The third is to delete "under § 1.684(c)," since § 1.684 is proposed to be deleted. A fourth proposed amendment to § 1.653(a) is to indicate that in addition to the types of testimony already set forth in paragraph (a), testimony includes copies of written interrogatories and answers and written requests for admissions and answers, which might be obtained where a motion for additional discovery under § 1.687(c) is granted.

Paragraph (b) of § 1.653 is proposed to be amended to be consistent with the proposed redesignation of certain paragraphs of § 1.672, to delete the reference to § 1.684(c), which is proposed to be cancelled, and for clarity. Paragraphs (c)(1) and (c)(4) of § 1.653 are proposed to be amended to make it clear that the only testimony to be included in a party's record is testimony submitted on behalf of the party. Having copies of the same testimony appear in both parties' records unnecessarily encumbers the records and is confusing in that a given page of testimony will have different page numbers in the different records, with the result that the briefs of the parties will refer to different record pages for the same testimony.

It is proposed that paragraph (c)(5) of § 1.653 be deleted and reserved. Paragraph (c)(5) currently requires that the record filed by each party include each notice, official record and printed publication relied upon by the party and filed under § 1.682(a). This requirement is considered unnecessary because such notices, official records and printed publications are in the nature of exhibits under § 1.653(i), which are submitted with but not included in the record. The inclusion of exhibits in the record merely increases the size of the record without serving any useful purpose.

Paragraph (g) of § 1.653 is proposed to be amended and paragraphs (f) and (h) deleted and reserved to eliminate the current distinction between typewritten and printed records. Paragraph (g) is also proposed to be amended to change "8 1/2 x 11 inches (21.8 by 27.9 cm.)" to "21.8 by 27.9 cm. (8 1/2 x 11 inches)" and to delete the requirement for justified margins and to require that the records be bound with covers at their left edges in such manner as to lie flat when open to any page and in one or more volumes of convenient size (approximately 100 pages per volume is suggested) and that when there is more than one volume, the numbers of the pages contained in each volume must appear at the top of the cover for each volume. Paragraph (i) is proposed to be amended to state that exhibits include documents and things identified in

affidavits or on the record during the taking of oral depositions as well as official records and publications submitted pursuant to § 1.682(a).

In § 1.654, it is proposed to amend paragraph (a) by changing "shall" in the second sentence to "may" for clarity and also to reduce the time for oral argument by a party from 60 minutes to 30 minutes, because most hearings have required no more than 30 minutes per side and a panel has the discretion to grant more time at the hearing, where necessary.

In § 1.655, it is proposed to amend paragraph (a) by changing the standard of review from "erroneous or an abuse of discretion" to "an abuse of discretion." The recitation of a separate "error" standard is unnecessary, because an abuse of discretion may be found when (1) the decision of an administrative patent judge is clearly unreasonable, arbitrary or fanciful, (2) the decision is based on an erroneous conclusion of law, (3) the findings of the administrative patent judge are clearly erroneous, or (4) the record contains no evidence upon which the administrative patent judge rationally could have based the decision. *See, e.g., Heat and Control, Inc. v. Hester Industries, Inc.*, 785 F.2d 1017, 228 USPQ 926 (Fed. Cir. 1986); *Western Electric Co. v. Piezo Technology, Inc. v. Quigg*, 860 F.2d 428, 8 USPQ2d 1853 (Fed. Cir. 1988).

It is proposed to amend paragraph (b) of § 1.655 to clarify which matters a party is not entitled to raise for consideration at final hearing. As proposed to be amended, paragraph (b) would provide that a party shall not be entitled to raise for consideration at final hearing a matter which properly could have been raised by a motion under § 1.633 or 1.634 unless (1) the matter was properly raised in a motion that was timely filed by the party under § 1.633 or 1.634 and the motion was denied or deferred to final hearing, (2) the matter was properly raised by the party in a timely filed opposition to a motion under § 1.633 or 1.634 and the motion was granted over the opposition or deferred to final hearing, or (3) the party shows good cause why the issue was not properly raised by a timely filed motion or opposition. It is also proposed to amend paragraph (b) of § 1.655 to state that a change of attorneys during the interference generally does not constitute good cause for failing to file a timely motion or opposition.

It is further proposed, in response to *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993), to amend paragraph (b) of § 1.655 by adding a sentence explaining that a party who fails to contest, by way of a timely filed preliminary motion under § 1.633(c), the designation of a claim as corresponding to a count may not subsequently argue the separate patentability or the lack of separate patentability of claims designated as corresponding to the count. The Patent and Trademark Office conducts interference proceedings to determine who, as between two or more applicants for patent or one or more applicants for patent and one or more patentees, is the first inventor of a patentable invention. A primary examiner determines in the first instance whether the claims in a pending application interfere with the claims in another pending application or unexpired patent. When the examiner is of the view that an interference exists, the Board is notified (§ 1.609). The interference is assigned to an administrative patent judge (§ 1.610), who issues a notice declaring the interference (§ 1.611). Each separately patentable invention involved in the interference is defined by a count, which is merely a vehicle for contesting priority of invention (i.e., who made the invention defined by the count first) and determining the evidence relevant to the issue of priority. A preliminary determination is made by the Patent and Trademark Office as to which claims should be designated to correspond to the count. The claims that are initially determined to define the same patentable invention are designated as corresponding to the count. All other claims are designated as not corresponding to the count. The designation of claims provides a starting point in an interference. There is a presumption that the designation of a claim as corresponding or as not corresponding to a count is correct.

The interference rules authorize a party to file a preliminary motion to redefine an interference by designating a claim as corresponding (§ 1.633(c)(3)) or not corresponding (§ 1.633(c)(4)) to a count. Prior to Van Geuns, the Patent and Trademark Office interpreted the interference rules as requiring a party to file a preliminary motion under § 1.633(c)(4) to designate a claim as not corresponding to the count as a condition for arguing at final hearing that a claim designated as corresponding to the count is patentably distinct from another claim designated as corresponding to the count. *See Brooks v. Street*, 16 USPQ2d 1374, 1377 (Bd. Pat. App. & Int. 1990); *Flehmig v. Geisa*, 13 USPQ2d 1052, 1054 (Bd. Pat. App. & Int. 1989); *Kwon v. Perkins*, 6 USPQ2d 1747, 1750 (Bd. Pat. App. & Int. 1988), *aff'd on other grounds*, 886 F.2d 325, 12 USPQ2d 1308 (Fed. Cir. 1989); *see also Lamont v. Berguer*, 7 USPQ2d 1580, 1582 (Bd. Pat. App. & Int. 1988). However, in *Van Geuns* the Federal Circuit interpreted the rules differently, stating:

> [T]he position of the Commissioner that claims designated as corresponding to a count stand or fall with the patentability of the subject matter of the count is overbroad.

988 F.2d at 1185, 26 USPQ2d at 1060. The Court further stated:

> [W]e conclude that a party to an interference, who has failed to timely contest the designation of claims as corresponding to a count, has not conceded that claims corresponding to a count are anticipated or made obvious [i.e., are unpatentable] by the prior art when the subject matter of a count is determined to be unpatentable for obviousness. The PTO must determine, based on the actual prior art reference or references, whether claims not [designated as] corresponding exactly to the count are unpatentable.
>
> . . . The interference rules do not specify whether a party may argue the patentability of claims separately to the EIC [examiner-in-chief, now administrative patent judge] and the board.

Id. at 1186, 26 USPQ2d at 1060 (bracketed material added by the Commissioner). The proposed amendment to § 1.655(b) is designed to overcome the Federal Circuit's interpretation of the rules and to create a presumption that all claims designated as corresponding to a count are directed to the same patentable invention.

It is proposed to amend paragraph (c) of § 1.655 by changing "To prevent manifest injustice" to "In the interest of justice" to be consistent with the language used in other interference rules.

In § 1.656, it is proposed to redesignate paragraphs (b)(1) through (b)(6) as paragraphs (b)(3) through (b)(8), respectively, and to add new paragraphs (b)(1) and (b)(2) requiring the brief to include (1) a statement of interest identifying every party represented by the attorney in the interference and the real party in interest if the party named in the caption is not the real party in interest and (2) a statement of related cases indicating whether the interference was previously before the Board for final hearing and identifying any related appeal or interference which is pending before, or which has been decided by, the Board, or which is pending before, or which has been decided by, the Court of Appeals for the Federal Circuit or a district court in a proceeding under 35 U.S.C. 146. A related appeal or interference is one which will directly affect or be directly affected by or have a bearing on the Board's decision in the pending interference. Appeals are mentioned because related issues may be present before the Board simultaneously in an ex parte appeal and an interference. It is also proposed to amend current paragraph (b)(3) (proposed to be redesignated as paragraph (b)(5)) to specify that statements of fact preferably should be presented in numbered paragraphs.

Current paragraph (b)(4) of § 1.656 (proposed to be redesignated as paragraph (b)(6)) requires that the opening brief of the junior party contain the contentions of the party with respect to the "issues to be decided," which has been construed to include the matter of whether some of the senior party's evidence of conception was inadmissible hearsay. *Suh v. Hoefle*, 23 USPQ2d 1321, 1323 (Bd. Pat. App. & Int. 1991). As support, the Board relied on *Fisher v. Bouzard*, 3 USPQ2d 1677 (Bd. Pat. App. & Int. 1987), and *Moller v. Harding*, 214 USPQ 730 (Bd. Pat. Int. 1982). Both of these cases concern interferences declared under the "old" interference rules (i.e., § 1.201 *et seq.*), of which § 1.254 specified that the opening brief of the junior party shall "present a full, fair statement of the questions involved, including his position with respect to the priority evidence on behalf of other parties." Current § 1.656(b)(4) does not expressly require, and was not intended to imply, that the opening brief of the junior party must address the evidence of any other party with respect to the issue of priority or any other issue. In order to clarify that the opening brief of a junior party need not address the evidence of the other parties, it is proposed to amend current paragraph (b)(4) to require that the junior

party's opening brief contain the contentions of the party "with respect to the issues it is raising for consideration at final hearing." These issues would include the junior party's case-in-chief for priority with respect to an opponent or derivation by an opponent as well as matters raised in any denied or deferred motions of the junior party that are to be reviewed or considered at final hearing. Where the reply brief of the junior party includes a new argument in response the case-in-chief of the senior party as presented in the senior party's opening brief, the senior party may move under § 1.635 for leave to file a reply to the junior party's reply brief, which motion must be accompanied by a copy of the senior party's reply.

Paragraph (d) of § 1.656 is proposed to be amended to state that unless ordered otherwise by an administrative patent judge, briefs shall be double-spaced (except for footnotes, which may be single-spaced) and shall comply with the requirements of § 1.653 (g) for records except the requirement for binding. As a result, the current distinction between printed and typewritten briefs would be eliminated.

Paragraphs (e), (g) and (h) of § 1.656 are proposed to be amended to require an original and four copies (currently an original and three copies are required) of each brief, any proposed findings of fact and conclusions of law, any motion under 37 CFR 1.635 to suppress evidence and any opposition to a motion to suppress evidence.

Paragraph (g) of § 1.656, which permits a party to file proposed findings of fact and conclusions of law, is further proposed to be amended to require paragraph numbers for the findings of fact and conclusions of law.

Paragraph (h) is further proposed to be amended to state that a party's failure to challenge the admissibility of the evidence of an opponent on a ground that could have been raised in a timely objection under §§ 1.672(c), 1.682(c), 1.683(b) or 1.688(b) constitutes a waiver of the right to move under § 1.656(h) to suppress the evidence on that ground at final hearing.

Paragraph (i) of § 1.656 currently provides that if a junior party fails to file an opening brief for final hearing, an order may be issued by the administrative patent judge requiring the junior party to show cause why the failure to file a brief should not be treated as a concession of priority and further provides that judgment may be rendered against the junior party if the junior party "fails to respond" within a time period set in the order. The expression "fails to respond" has been misinterpreted by some junior parties as meaning that the mere filing of a response of any kind to the order to show cause should be sufficient to avoid the entry of judgment. Such an interpretation was not intended and if adopted would effectively negate § 1.656(i). The term "respond" is proposed to be changed to "show good cause" in order to make it clear that a junior party's failure to file a timely opening brief will not be excused unless good cause is shown to explain or justify the failure to file a brief. The language of the rule will then be consistent with the other interference rules concerning orders to show cause, e.g., § 1.640(c) and 1.652.

Section 1.657 is proposed to be amended to be consistent with the proposed changes to the definition of "effective filing date" in § 1.601(g) and to state that in an interference involving an application and a patent where the effective filing date of the application is after the date the patent issued, a junior party has the burden of establishing priority by clear and convincing evidence, and that in other interferences the junior party has the burden of establishing priority by a preponderance of the evidence. The proposed amendment would codify the holding of *Price v. Symsek* 988 F.2d 1187, 1190-91, 26 USPQ2d 1031, 1033 (Fed. Cir. 1993), as clarified by *Bosies v. Benedict*, 27 F.3d 539, 541-42, 30 USPQ2d 1862, 1864 (Fed. Cir. 1994).

In § 1.658, it is proposed to amend paragraph (a) to state that when the Board enters a decision awarding judgment as to all counts, the decision shall be regarded as a final decision for the purpose of judicial review (35 U.S.C. 141-144, 146) unless a request for reconsideration under paragraph (b) of this section is timely filed. In paragraph (b), third sentence, it is proposed to delete the phrases "[w]here reasonably possible" and "such that delivery is accomplished" as unnecessary and to add a sentence specifying that a decision on reconsideration is a final decision for the purpose of judicial review (35 U.S.C. 141-144, 146). It is also proposed to amend paragraph (b) by changing "reply to a request for reconsideration" to "opposition to a request for reconsideration" to be consistent with the terminology employed in § 1.640(c) regarding requests for reconsideration of decisions on preliminary motions.

Section 1.660 is proposed to be amended by adding a new paragraph (e) explaining that the failure of a party to comply with the notice provisions of § 1.660 may result in sanctions under § 1.616, that knowledge by, or notice to, an employee of the Office other than an employee of the Board, of the existence of the reexamination, application for reissue, protest, or litigation shall not be sufficient, and that the notice contemplated by this section is notice addressed specifically to an administrative patent judge or the Board.

In § 1.662, it is proposed to amend paragraph (a) by changing "filing by an applicant or patentee" in the second sentence to "filing by a party" to make it clear that the terminal disclaimer can be signed by the party's attorney or agent of record. For the same reason, it is proposed to change "by an applicant" to "by a party" in the third sentence of paragraph (a), which concerns abandonment of an involved application.

In paragraph (b) of § 1.662, the first sentence is proposed to be amended to change "omits all claims of the patent corresponding to the counts of the interference for the purpose of avoiding the interference" to "does not include a claim that corresponds to a count" in order to make it clear that judgment may not be entered where the reissue application includes a new or amended claim that should be designated as corresponding to a count, even if the patentee argues that it should be designated as not corresponding to a count. Similarly, it is proposed to change "reissue other than for the purpose of avoiding the interference" to "reissue which includes a claim that corresponds to a count."

In § 1.671, it is proposed to amend paragraph (a) by changing "*evidence* from another interference, proceeding, or action filed under § 1.683" to "*testimony* from another interference, proceeding, or action filed under § 1.683" in order to be consistent with the terminology of § 1.683. It is proposed to amend paragraphs (c)(6) and (c)(7) of § 1.671 to change "by oral deposition or affidavit" to "by affidavit or oral deposition." Paragraph (f) is proposed to be amended to clarify that the requirement for the significance of documentary and other exhibits to be discussed with particularity by a witness applies only to documentary and other exhibits identified by a witness in an affidavit or during oral deposition. Paragraph (f) does not apply to official records and printed publications submitted into evidence pursuant to § 1.682(a).

In § 1.672, in addition to the proposed amendments discussed above under the heading "Amendments responsive to adoption of Public Law 103-182," it is proposed to amend paragraph (b) by deleting the third sentence, which specifies the type of paper to be used for affidavits, as being superfluous in view of § 1.677(a). In paragraph (d), it is proposed to delete the fifth sentence ("A party electing to present testimony of a witness by deposition shall notice a deposition of the witness under § 1.673(a).") as superfluous in view of the second sentence of § 1.672(d).

In § 1.673, it is proposed to amend paragraph (b) by changing the time for service of evidence to be relied on at an oral deposition from "at least three days" prior to the conference required by § 1.673(g) when service is by hand or by Express Mail to "at least three working days" prior to the conference. It is also proposed to amend paragraph (b) to change the time for service by any other means from 10 days to 14 days prior to the conference. It is proposed to amend paragraph (d) of § 1.673 by deleting the second sentence as unnecessary, since all depositions for a case-in-chief would have to be approved by an administrative patent judge. It is also proposed to delete the quotation marks around "Express Mail" in paragraph (b).

Also in § 1.673, it is proposed to clarify paragraph (e) by changing "party electing to present testimony by affidavit" to "party who has presented testimony by affidavit."

In paragraph (a) of § 1.674, which specifies before whom depositions may be taken, it is proposed to delete the reference to "United States or a territory or insular possession of the United States" in order to make this paragraph applicable to depositions for testimony compelled in foreign countries.

In § 1.675, it is proposed to amend paragraph (d), which concerns reading and signing of a transcript by the witness, to take into account that the witness might refuse to read and/or sign the transcript of the deposition, in which case the circum-

stances under which the witness refused to sign must be noted on the certificate by the officer who prepared the certified transcript (§ 1.676(c)).

In § 1.676, it is proposed to amend paragraph (a)(4) by changing "opposing party" to "opponent."

Section 1.677, which in its current form specifies the required form for transcripts of depositions, is proposed to be amended to also apply to affidavits. Furthermore, it is proposed to delete the reference to "typewritten" matter, to change "pica-type" to "11 point type" and to change "8 1/2 x 11 inches (21.8 by 27.9 cm.)" to "21.8 by 27.9 cm. (8 1/2 x 11 inches)."

In § 1.678, it is proposed to change the section heading from "Transcript of deposition must be filed" to "Time for filing transcript of deposition" for clarity and to amend the text by changing the time for filing the certified transcript from 45 days to 30 days.

In § 1.679, it is proposed to change "transcript" to "transcript of a deposition" for clarity and also to delete "for printing (§ 1. 653 (g))" as unnecessary.

In § 1.682, in addition to the proposed amendments discussed above under the heading "Service of a "'developing record,'" it is proposed to amend paragraph (a) by changing "identified during the taking of testimony of a witness" to "identified in an affidavit or on the record during an oral deposition of a witness" for clarity. It is also proposed to delete and reserve paragraph (a)(4) ("where appropriate, be accompanied by a certified copy of the official record or a copy of the printed publication (§ 1.671(d))") as superfluous in view of Rules 901 and 902 of the Federal Rules of Evidence, which apply to interference proceedings (§ 1.671(b)) and require authentication of evidence that is not self-authenticating. Finally, it is proposed to capitalize the first word in each of paragraphs (a)(2) , (a)(3) and (a)(4).

In § 1.685, it is proposed to amend paragraph (d) for clarification.

In § 1.687, it is proposed to amend paragraph (c) to refer to 1.647 concerning translations of documents in a foreign language.

Other Considerations: These proposed rules conform with the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, Executive Order 12866, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.* The Office of Management and Budget has determined that these proposed rules are not significant for the purposes of Executive Order 12866.

The Assistant Counsel for Legislation and Regulation of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the proposed rule changes will not have a significant economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)), because the changes clarify existing rules setting forth the procedures used in patent appeals and interferences.

The Patent and Trademark Office has determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These rule changes will not impose any additional burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et. seq.*, since no record keeping or reporting requirements within the coverage of the Act are placed upon the public.

List of Subjects in 37 CFR Part 1

Administrative practice and procedure, Courts, Inventions and patents.

For the reasons set out in the preamble, it is proposed to amend 37 CFR Part 1 wherein removals are indicated by brackets ([]) and additions by arrows (cb) as follows:

PART 1 - Rules of Practice in Patent Cases

1. The authority citation for 37 CFR Part 1 would continue to read as follows:

Authority: 35 U.S.C. 6, unless otherwise noted.

2. Section 1.11 is proposed to be amended by revising paragraph (e) to read as follows:

§ 1.11 Files open to public

* * * * *

(e) The file of any interference involving a patent, a statutory invention registration, c reissue application,b or an application on which a patent has been issued or which has been published as a statutory invention registration, is open to inspection by the public, and copies may be obtained upon paying the fee therefor, if: (1) the interference has terminated, or (2) an award of priority or judgment has been entered as to all parties and all counts.

3. In § 1.192, it is proposed to revise paragraphs (a), (c), (c)(5) and (c)(5)(ii), redesignate current paragraphs (c)(1) through (c)(7) as paragraphs (c)(3) through (c)(9) and add new paragraphs (c)(1) and (c)(2) to read as follows:

§ 1.192 Appellant's brief.

(a) [The appellant] cAppellantb shall, within 2 months from the date of the notice of appeal under § 1.191 [in an application, reissue application, or patent under reexamination,] or within the time allowed for response to the action appealed from, if such time is later, file a brief in triplicate. The brief must be accompanied by the requisite fee set forth in § 1.17(f) and must set forth the authorities and arguments on which [the] appellant will rely to maintain the appeal. Any arguments or authorities not included in the brief cwillb [may] be refused consideration by the Board of Patent Appeals and Interferences c, unless good cause is shownb.

* * * * *

(c) The brief shall contain the following items under appropriate headings and in the order [here] indicated cbelowb unless cthe brief is filed by an applicant who is not represented by a registered practitionerb [there is no attorney or agent of record in the application or reexamination proceeding, the brief was not prepared by a registered practitioner, and the brief was not signed by a registered practitioner, wherein the brief will be accepted as complying with this paragraph provided it is at least in substantial compliance with the requirements of paragraphs (c)(1), (2), (6) and (7)]:

c(1) *Real Party in Interest*. A statement identifying the real party in interest, if the party named in the caption of the brief is not the real party in interest, and the parent companies, subsidiaries (except wholly owned subsidiaries) and affiliates that have issued shares to the public of the real party in interest.

(2) *Related Appeals and Interferences*. A statement identifying by number and filing date all other appeals or interferences known to appellant, the appellant's legal representative, or assignee which will directly affect or be directly affected by or have a bearing on the Board's decision in the pending appeal.b

[(1)] c(3)b *Status of Claims*. A statement of the status of all the claims, pending or cancelled, and identifying the claims appealed.

[(2)] c(4)b *Status of Amendments*. A statement of the status of any amendment filed subsequent to final rejection.

[(3)] c(5)b *Summary of Invention*. A concise explanation of the invention defined in the claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters.

[(4)] c(6)b *Issues*. A concise statement of the issues presented for review.

[(5)] c(7)b *Grouping of Claims*. For each ground of rejection which appellant contests and which applies to more than one claim, [it will be presumed that] the rejected claims cshallb stand or fall together cwith the broadest claim, and only the broadest claim will be considered by the Board of Patent Appeals and Interferencesb unless:

c(i)b a statement is included that the rejected claims do not stand or fall together, and

c(ii)b in [the appropriate part or parts of] the argument under subparagraph c(c)(8)b [(c)(6)] of this section appellant presents reasons as to why appellant considers the rejected claims to be separately patentable cfrom the broadest claim. Merely pointing out what a claim covers is not an argument

as to why the claim is separately patentable from the broadest claimsb.

[(6)] c(8)b *Argument*. The contentions of [the] appellant with respect to each of the issues presented for review in subparagraph c(c)(6)b [(c)(4)] of this section, and the basis therefor, with citations of the authorities, statutes, and parts of the record relied on. Each issue should be treated under a separate heading.

* * * * *

(v) For any rejection other than those referred to in paragraphs c(c)(8)(i)b [(c)(6)(i)] to (iv) of this section, the argument shall specify the errors in the rejection and the specific limitations in the rejected claims, if appropriate, or other reasons, which cause the rejection to be in error.

[(7)] c(9)b *Appendix*. An appendix containing a copy of the claims involved in the appeal.

(d) If a brief is filed which does not comply with all the requirements of paragraph (c) of this section, [the] appellant will be notified of the reasons for non-compliance and provided with a period of one month within which to file an amended brief. If [the] appellant does not file an amended brief during the one-month period, or files an amended brief which does not overcome all the reasons for non-compliance stated in the notification, the appeal will cstandb[be]dismissed.

4. Section 1.601 is proposed to be amended by revising paragraphs (f), (g), (j), (k), (l) and (q) and adding a new paragraph (r) to read as follows:

§ 1.601 Scope of rules, definitions.

* * * * *

(f) A *count* defines the interfering subject matter between (1) two or more applications or (2) one or more applications and one or more patents. cA count should be broad enough to encompass the broadest corresponding patentable claim of each of the parties. A count may not be so broad as to be unpatentable over the prior art.b When there is more than one count, each count shall define a separate patentable invention. Any claim of an application or patent [which] cthat is designated tob correspond[s] to a count is a claim involved in the interference within the meaning of 35 U.S.C. 135(a). A claim of a patent or application cdesignated to correspond to a count thatb [which] is identical to a count is said to "correspond exactly" to the count. A claim of a patent or application cdesignated to correspond to a count that b[which] is not identical to a count [, but which defines the same patentable invention as the count,] is said to "correspond substantially" to the count. When a count is broader in scope than all claims which correspond to the count, the count is a "phantom count." A phantom count is [not patentable to any party] cunpatentable to all parties under the written description requirement of the first paragraph of 35 U.S.C. 112b.

(g) The *effective filing date* of an application [or a patent] is the filing date of an earlier application accorded to the application [or patent] under 35 U.S.C. 119, 120, c121,b or 365 cor, if no benefit is accorded, the filing date of the application. The *effective filing date* of a patent is the filing date of an earlier application accorded to the patent under 35 U.S.C. 120, 121, or 365(c) or, if no benefit is accorded, the filing date of the application which issued as the patent.b

* * * * *

(j) An *interference-in-fact* exists when at least one claim of a party [which] cthatb corresponds to a count and at least one claim of an opponent [which] cthatb corresponds to the count define the same patentable invention.

(k) A *lead* attorney or agent is a registered attorney or agent of record who is primarily responsible for prosecuting an interference on behalf of a party and is the attorney or agent whom an cadministrative patent judgeb [examiner-in-chief] may contact to set times and take other action in the interference.

(l) A *party* is (1) an applicant or patentee involved in the interference or (2) a legal representative or an assignee cof record in the Patent and Trademark Officeb of an applicant or patentee involved in an interference. Where acts of a party are normally performed by an attorney or agent, "party" may be construed to mean the attorney or agent. An "inventor" is the individual named as inventor in an application involved in an interference or the individual named as inventor in a patent involved in an interference.

* * * * *

(q) A *final decision* is a decision awarding judgment as to all counts. An *interlocutory order* is any other action taken by an cadministrative patent judgeb [examiner-in-chief] or [a panel of] the Board in an interference, including the notice declaring an interference.

c(r) *NAFTA country* means NAFTA country as defined in section 2(4) of the North American Free Trade Agreement Implementation Act. A "non-NAFTA country" is a country other than the United States or a NAFTA country.b

5. Section 1.602 is proposed to be amended by revising paragraph (c) to read as follows:

§ 1.602 Interest in applications and patents involved in an interference.

* * * * *

(c) If a change of any right, title, and interest in any application or patent involved or relied upon in the interference occurs after notice is given declaring the interference and before the time expires for seeking judicial review of a final decision of the Board, the parties shall notify the Board of the change within 20 days cafterb [of] the change.

6. Section 1.603 is proposed to be revised to read as follows:

§ 1.603 Interference between applications; subject matter of the interference.

Before an interference is declared between two or more applications, the examiner must be of the opinion that there is interfering subject matter claimed in the applications which is patentable to each applicant subject to a judgment in the interference. The interfering subject matter shall be defined by one or more counts. [Each count shall define a separate patentable invention.] Each application must contain, or be amended to contain, at least one cpatentableb claim which corresponds to each count. All claims in the applications which define the same patentable invention as a count shall be designated to correspond to the count.

7. Section 1.604 is proposed to be revised by changing paragraph (a)(1) to read as follows:

§ 1.604 Request for interference between applications by an applicant.

(a) * * *

(1) Suggesting a proposed count and presenting at least one claim corresponding to the proposed count or identifying at least one claim in [his or her] citsb application that corresponds to the proposed count,

* * * * *

8. Section 1.605 is proposed to be amended by revising paragraph (a) to read as follows:

§ 1.605 Suggestion of claim to applicant by examiner.

(a) cIf no claim in an application is drawn to the same patentable invention claimed in another application or patent, theb [The] examiner may suggest that an applicant present a claim [in an application] cdrawn to an invention claimed in another application or patentb for the purpose of an interference with another application or a patent. The applicant to whom the claim is suggested shall amend the application by presenting the suggested claim within a time specified by the examiner, not less than one month. Failure or refusal of an applicant to timely present the suggested claim shall be taken without further action as a disclaimer by the applicant of the invention defined by the suggested claim. At the time the suggested claim is presented, the applicant may also (1) call the examiner's atten-

tion to other claims already in the application or which are presented with the suggested claim and (2) explain why the other claims [would be more appropriate to] cshoulddb be included in any interference which may be declared.

* * * * *

9. Section 1.606 is proposed to be revised to read as follows:

§ 1.606 Interference between an application and a patent; subject matter of the interference.

Before an interference is declared between an application and an unexpired patent, an examiner must determine that there is interfering subject matter claimed in the application and the patent which is patentable to the applicant subject to a judgment in the interference. The interfering subject matter will be defined by one or more counts. [Each count shall define a separate patentable invention.] cTheb [Any] application must contain, or be amended to contain, at least one cpatentableb claim which corresponds to each count. cThe claim in the application need not be, and most often will not be, identical to a claim in the patent.b All claims in the application and patent which define the same patentable invention as a count shall be designated to correspond to the count. At the time an interference is initially declared (§ 1.611), a count shall not be narrower in scope than any patent claim which corresponds to the count and any single patent claim will be presumed, subject to a motion under § 1.633(c), not to contain separate patentable inventions.

10. Section 1.607 is proposed to be amended by revising paragraph (a)(4) and adding a new paragraph (a)(6) to read as follows:

§ 1.607 Request by applicant for interference with patent.

(a) * * *

(4) Presenting at least one claim corresponding to the proposed count or identifying at least one claim already pending in [his or her] citsb application that corresponds to the proposed count, and, if any claim of the patent or application identified as corresponding to the proposed count does not correspond exactly to the proposed count, explaining why each such claim corresponds to the proposed count, and

(5) * * *

c(6) Explaining how the requirements of 35 U.S.C. 135(b) are met, if the claim presented or identified under paragraph (a)(4) of this section was not present in the application until more than one year after the issue date of the patent.b

* * * * *

11. Section 1.608 is proposed to be amended by revising paragraphs (a) and (b) thereof to read as follows:

§ 1.608 Interference between an application and a patent; prima facie showing by applicant.

(a) When the [earlier of the filing date or] effective filing date of an application is three months or less after the [earlier of the filing date or] effective filing date of a patent, [the applicant,] before an interference will be declared, ceither the applicant or the applicant's attorney or agent of recordb shall file [an affidavit] ca statementb alleging that there is a basis upon which ctheb applicant is entitled to a judgment relative to the patentee.

(b) When the [earlier of the filing date or the] effective filing date of an application is more than three months after the [earlier of the filing date or the] effective filing date [under 35 U.S.C. 120] of a patent, the applicant, before an interference will be declared, shall file (1) evidence which may consist of patents or printed publications, other documents, and one or more affidavits which demonstrate that applicant is *prima facie* entitled to a judgment relative to the patentee and (2) an explanation stating with particularity the basis upon which the applicant is *prima facie* entitled to the judgment. Where the basis upon which an applicant is entitled to judgment relative to a patentee is priority of invention, the evidence shall include affidavits by the applicant, if possible, and one or more corroborating witnesses, supported by documentary evidence, if available, each setting out a factual description of acts and circumstances performed or observed by the affiant, which collectively would *prima facie* entitle the applicant to judgment on priority with respect to the [earlier of the filing date or] effective filing date of the patent. To facilitate preparation of a record (§ 1.653 (g) and (h)) for final hearing, an applicant should file affidavits on paper which is c21.8 by 27.9 cm. (8 1/2 x 11 inches)b [8 1/2 x 11 inches (21.8 by 27.9 cm.)]. The significance of any printed publication or other document which is self-authenticating within the meaning of Rule 902 of the Federal Rules of Evidence or § 1.671(d) and any patent shall be discussed in an affidavit or the explanation. Any printed publication or other document which is not self-authenticating shall be authenticated and discussed with particularity in an affidavit. Upon a showing of cgoodb [sufficient] cause, an affidavit may be based on information and belief. If an examiner finds an application to be in condition for declaration of an interference, the examiner will consider the evidence and explanation only to the extent of determining whether a basis upon which the application would be entitled to a judgment relative to the patentee is alleged and, if a basis is alleged, an interference may be declared.

12. Section 1.609 is proposed to be amended by revising paragraph (b)(2) and (b)(3) to read as follows:

§ 1.609 Preparation of interference papers by examiner.

* * * * *

(b) * * *

(2) The claims of any application or patent which correspond to each count, stating whether the claims correspond exactly or substantially to each count cand an explanation why each claim designated as corresponding to a count is directed to the same patentable invention as the countb;

(3) The claims in any application cor patentb which [are deemed by the examiner to be patentable over any] cdo not correspond to eachb count cand an explanation why each claim designated as not corresponding to a count is not directed to the same patentable invention as the countb; and

* * * * *

13. Section 1.610 is proposed to be amended by revising the section heading and paragraphs (a) through (e) to read as follows:

§ 1.610 Assignment of interference to cadministrative patent judgeb [examiner-in-chief], time period for completing interference.

(a) Each interference will be declared by an cadministrative patent judgeb [examiner-in-chief] who may enter all interlocutory orders in the interference, except that only [a panel consisting of at least three members of] the Board shall (1) hear oral argument at final hearing, (2) enter a decision under §§ 1.617, c1.640(e)b [1.640(c) or (e)], 1.652, 1.656(i) or 1.658 or (3) enter any other order which terminates the interference.

(b) As necessary, another cadministrative patent judgeb [examiner-in-chief] may act in place of the one who declared the interference. [Unless otherwise provided in this section, at] cAtb the discretion of the examiner-in-chief assigned to the interference, a panel consisting of two or more members of the Board may enter interlocutory orders.

(c) Unless otherwise provided in this subpart, times for taking action by a party in the interference will be set on a case-by-case basis by the cadministrative patent judgeb [examiner-in-chief] assigned to the interference. Times for taking action shall be set and the cadministrative patent judgeb [examiner-in-chief] shall exercise control over the interference such that the pendency of the interference before the Board does not normally exceed two years.

An opposition shall (1) identify any material fact set forth in the motion which is in dispute and (2) include an argument why the relief requested in the motion should be denied.

(b) Unless otherwise ordered by an cadministrative patent judgeb [examiner-in-chief], canyb[a] reply shall be filed within 15 days after service of the opposition. A reply shall be directed only to new points raised in the opposition.

38. Section 1.639 is proposed to be amended by revising paragraphs (a), (c) and (d)(1) to read as follows:

§ 1.639 Evidence in support of motion, opposition, or reply.

If the cadministrative patent judgeb [examiner-in-chief] finds that testimony is needed to decide the motion, the cadministrative patent judgeb [examiner-in-chief] may grant appropriate interlocutory relief and enter an order authorizing the taking of testimony and deferring a decision on the motion to final hearing.

39. Section 1.640 is proposed to be amended by revising paragraphs (a), (b), (b)(1), (b)(2), (c), (d), (d)(1), (d)(3) and (e) to read as follows:

§ 1.640 Motions, hearing and decision, redeclaration of interference, order to show cause.

(a) A hearing on a motion may be held in the discretion of the cadministrative patent judgeb [examiner-in-chief]. The cadministrative patent judgeb [examiner-in-chief] shall set the date and time for any hearing. The length of oral argument at a hearing on a motion is a matter within the discretion of the cadministrative patent judgeb [examiner-in-chief]. An cadministrative patent judgeb [examiner-in-chief] may direct that a hearing take place by telephone.

(b)cUnless an administrative patent judge or the Board is of the opinion that a decision on a preliminary motion would materially advance the resolution of the interference, decision on a preliminary motion shall be deferred to final hearing.b Motions cotherwiseb will be decided by an cadministrative patent judgeb [examiner-in-chief]. An cadministrative patent judgeb [examiner-in-chief] may consult with an examiner in deciding motions involving a question of patentability. An cadministrative patent judgeb [examiner-in-chief] cmay take up motions for decision in any order andb may grant or deny any motion or take such other action which will secure the just, speedy, and inexpensive determination of the interference. cA matter raised by a party in support of or in opposition to a motion that is deferred to final hearing will not be entitled to consideration at final hearing unless the matter is raised in the party's brief at final hearing. If the administrative patent judge determines that the interference shall proceed to final hearing on the issue of priority or derivation, a time shall be set for each party to file a paper identifying any decisions on motions or on matters raised sua sponte by the administrative patent judge that the party wishes to have reviewed at final hearing as well as identifying any deferred motions that the party wishes to have considered at final hearing. Any evidence that a party wishes to have considered with respect to the decisions and motions identified by the party or by an opponent for consideration or review at final hearing, including any affidavit filed by the party under § 1.608 or 1.639(b), shall be served on the opponent during the testimony-in-chief period of the party.b

(1) cWhen appropriate after the time expires for filing replies to oppositions to preliminary motionsb [When preliminary motions under § 1.633 are decided], the cadministrative patent judgeb [examiner-in-chief] will [, when necessary,] set a time for filing any amendment to an application involved in the interference and for filing a supplemental preliminary statement as to any new counts cwhich may becomeb involved in the interference cif a preliminary motion to amend or substitute a count has been filedb. Failure or refusal of a party to timely present an amendment required by an cadministrative patent judgeb [examiner-in-chief] shall be taken without further action as a disclaimer by that party of the invention involved. A supplemental preliminary statement shall meet the requirements specified in § 1.623, § 1.624, § 1.625, or § 1.626, but need not be filed if a party states that it intends to rely on a preliminary statement previously filed under § 1.621(a). cAt an appropriate time in the interference, and when necessaryb [After the time expires for filing any amendment and supplemental preliminary statement], can order will be entered redeclaring [the examiner-in-chief will, if necessary, redeclare] the interference.

(2) After cthe time expires for filing preliminary motionsb [a decision is entered on preliminary motions filed under § 1.633], a further cpreliminaryb motion under § 1.633 will not be considered except as provided by § [1.655(b)] c1.645(b)b.

(c) When a decision on any motion under § 1.633, § 1.634, or § 1.635 cor on any matter raised sua sponte by an administrative patent judgeb is entered which does not result in the issuance of an order to show cause under paragraph (d) of this section, a party may file a request for reconsideration within 14 days after the date of the decision. cThe request for reconsideration shall be served by hand or Express Mail.b The filing of a request for reconsideration will not stay any time period set by the decision. The request for reconsideration shall specify with particularity the points believed to have been misapprehended or overlooked in rendering the decision. cAn opponent may file an opposition within 14 days after service of the request for reconsideration.b [No opposition to a request for reconsideration shall be filed unless requested by an examiner-in- chief or the Board. A decision of a single examiner-in-chief will not ordinarily be modified unless an opposition has been requested by an examiner-in-chief or the Board. The request for reconsideration shall be acted on by a panel of the Board consisting of at least three examiners-in-chief, one of whom will normally be the examiner-in-chief who decided the motion].

(d) An cadministrative patent judgeb [examiner-in-chief] may issue an order to show cause why judgment should not be entered against a party when:

(1) A decision on a motion cor on a matter raised sua sponte by an administrative patent judgeb is entered which is dispositive of the interference against the party as to any count;

* * * * *

(3) The party is a junior party whose preliminary statement fails to overcome the [earlier of the filing date or] effective filing date of another party.

(e) When an order to show cause is issued under paragraph (d) of this section, the Board shall enter judgment in accordance with the order unless, within 20 days after the date of the order, the party against whom the order issued files a paper which shows good cause why judgment should not be entered in accordance with the order.

c(1) If the order was issued under paragraph (d)(1) of this section, the paper may (i) request that final hearing be set to review any decision which is the basis for the order as well as any other decision of the administrative patent judge that the party wishes to have reviewed by the Board at final hearing, or (ii) fully explain why judgment should not be entered.

(2)b Any other party may file a response to the paper within 20 days of the date of service of the paper. cIf the order was issued under paragraph (d)(1) of this section and the paper includes a request for final hearing, the response must identify every decision of the administrative patent judge that the responding party wishes to have reviewed by the Board at a final hearing. If the order was issued under paragraph (d)(1) of this section and the paper does not include a request for final hearing, the response may include a request for final hearing, which must identify every decision of the administrative patent judge that the responding party wishes to have reviewed by the Board at a final hearing. Where only the response includes a request for a final hearing, the party that filed the paper has 14 days from the date of service of the response in which to file a supplemental paper identifying any other decision of the administrative patent judge that the party wishes to have reviewed by the Board at a final hearing.

(3) The paper or the response thereto should be accompanied by a motion (§ 1.635) requesting a testimony period if a party wishes to introduce any evidence to be considered at final hearing (§ 1.671). A request for a testimony period shall be construed as including a request for final hearing.

(4) If the paper contains an explanation of why judgment should not be entered in accordance with the order and no party has requested a final hearing, the decision that is the basis for the order shall be reviewed based on the contents of the paper and the response. If the paper fails to show good cause, the Board shall enter judgment against the party against whom the order issued.b [If the party against whom the order was issued fails to show good cause, the Board shall enter judgment against the party. If a party wishes to take testimony in response to an order to show cause, the party's response should be accompanied by a motion (§ 1.635) requesting the testimony period. See § 1.651(c)(4).]

40. Section 1.641 and the section heading are proposed to be revised to read as follows:

§ 1.641 Unpatentability discovered by cadministrative patent judgeb [examiner-in-chief].

c(a)b During the pendency of an interference, if the administrative patent judgeb [examiner-in-chief] becomes aware of a reason why a claim cdesignated to correspondb [corresponding] to a count may not be patentable, the cadministrative patent judgeb [examiner-in-chief] may center an order notifyingb [notify] the parties of the reason and set a time within which each party may present its views c, which may include

argument and any appropriate preliminary motions under § 1.633(c), (d) or (h), including any supporting evidenceb.

c(b) If a party timely files a preliminary motion in response to the order of the administrative patent judge, any opponent may file an opposition pursuant to § 1.638(a). If an opponent files an opposition, the party may reply pursuant to § 1.638(b).

(c)b After considering any timely filed views, cincluding any timely filed preliminary motions under § 1.633,b the cadministrative patent judgeb [examiner-in-chief] shall decide how the interference shall proceed.

41. Section 1.642 is proposed to be revised to read as follows:

§ 1.642 Addition of application or patent to interference.

During the pendency of an interference, if the cadministrative patent judgeb [examiner-in-chief] becomes aware of an application or a patent not involved in the interference which claims the same patentable invention as a count in the interference, the cadministrative patent judgeb [examiner-in-chief] may add the application or patent to the interference on such terms as may be fair to all parties.

42. Section 1.643 is proposed to be amended by revising paragraph (b) to read as follows:

§ 1.643 Prosecution of interference by assignee.

* * * * *

(b) An assignee of a part interest in an application or patent involved in an interference may file a motion (§ 1.635) for entry of an order authorizing it to prosecute the interference. The motion shall show (1) the inability or refusal of the inventor to prosecute the interference or (2) other cause why cit is in the interest ofb [the ends of] justice cto permitb [require that] the assignee of a part interest [be permitted] to prosecute the interference. The cadministrative patent judgeb [examiner-in-chief] may allow the assignee of a part interest to prosecute the interference upon such terms as may be appropriate.

(a) There is no appeal to the Commissioner in an interference from a decision of an cadministrative patent judgeb [examiner-in-chief]or cthe Boardb [a panel consisting of more than one examiner-in-chief] . The Commissioner will not consider a petition in an interference unless:

(1) The petition is from a decision of an cadministrative patent judgeb [examiner-in-chief] or [a panel] cthe Boardb and the cadministrative patent judgeb [examiner-in-chief] or the [panel] cBoardb shall be of the opinion

(b) A petition under paragraph (a)(1) of this section filed more than 15 days after the date of the decision of the cadministrative patent judgeb [examiner-in-chief] or the [panel] cBoardb may be dismissed as untimely. A petition under paragraph (a)(2) of this section shall not be filed prior to cthe party's brief for final hearing (see § 1.656)b [the decision by the Board awarding judgment]. Any petition under paragraph (a)(3) of this section shall be timely if it is made as part of, or simultaneously with, a proper motion under § 1.633, § 1.634, or § 1.635 cwhen granting the motion would require waiver of a ruleb. Any opposition to a petition shall be filed within 15 days of the date of service of the petition.

(c) The filing of a petition shall not stay the proceeding unless a stay is granted in the discretion of the cadministrative patent judgeb [examiner-in-chief, the panel], cthe Board,b or the Commissioner.

(d) Any petition must contain a statement of the facts involved c, preferably in numbered paragraphs,b and the point or points to be reviewed and the action requested. See § 1.304(a) for extensions of time for filing a notice of appeal to the U.S. Court of Appeals for the Federal Circuit or for commencing a civil action. The motion shall be filed within sufficient time to actually reach the cadministrative patent judgeb [examiner-in-chief] before expiration of the time for taking action. A moving party should not assume that the motion will be granted even if there is no objection by any other party. The motion will be denied unless the moving party shows good cause why an extension should be granted. The press of other business arising after an cadministrative patent judgeb [examiner-in-chief] sets a time for taking action will not normally constitute good cause. A motion seeking additional time to take testimony because a party has not been able to procure the testimony of a witness shall set forth the name of the witness, any steps taken to procure the testimony of the witness, the dates on which the steps were taken, and the facts expected to be proved through the witness.

In the case of personal service under paragraphs (c)(1) through (c)(3) of this section, proof of service shall include the names of any person served and the person who made the service. Proof of service may be made by an acknowledgment of service by or on behalf of the person served or a statement signed by the party or the party's attorney or agent containing the information required by this section. A statement of an attorney or agent attached to, or appearing in, the paper stating the date and manner of service will be accepted as *prima facie proof of service*.

(d) Testimony, including any testimony to be taken cin a foreign countryb [abroad under § 1.684], shall be taken and completed during the testimony periods set under paragraph (a) of this section. A party seeking to extend the period for taking testimony must comply with § 1.635 and § 1.645(a).

48. Section 1.652 is proposed to be revised to read as follows:

§ 1.652 Judgment for failure to take testimony or file record.

When two or more interlocutory orders involve the same issue, the last entered order shall be presumed to have been correct.

(b) A party shall not be entitled to raise for consideration at final hearing a matter which properly could have been raised by a motion under §§ 1.633 or 1.634 unless (1) the cmatter was properly raised in ab motion cthatb was [properly] ctimelyb filed cby the party under §§ 1.633 or 1.634 and the motion was denied or deferred to final hearingb (2) the matter was properly raised by[a] ctheb party in[an] ca timely filedb opposition to a motion under §§ 1.633 or 1.634 and the motion was granted over the opposition cor deferred to final hearingbor (3) the party shows good cause why the issue was not [timely] cproperlyb raised by ca timely filedb motion or opposition. cA change of attorneys during the interference generally does not constitute good cause. A party who fails to contest, by way of a timely filed preliminary motion under § 1.633(c), the designation of a claim as corresponding to a count may not subsequently argue to an administrative patent judge or the Board the separate patentability or lack of separate patentability of claims designated to correspond to the count.b

(c) cIn the interest of justiceb [To prevent manifest injustice], the Board may cexercise its discretion tob consider an issue even though it would not otherwise be entitled to consideration under this section.

If typewritten, legal-size paper may be used. The opening brief of each party in excess of 50 legal-size double-spaced typewritten pages or any other brief in excess of 25 legal-size double-spaced typewritten pages shall be printed unless a satisfactory reason be given why the brief should not be printed. Any printed brief shall comply with the requirements of § 1.653(g). (i) When a junior party fails to timely file an opening brief, an order may issue requiring the junior party to show cause why the Board should not treat failure to file the brief as a concession of priority. If the junior party fails to cshow good causeb [respond] within a time period set in the order, judgment may be entered against the junior party.

53. Section 1.657 is proposed to be revised to read as follows:

§ 1.657 Burden of proof as to date of invention.

c(a)b A rebuttable presumption shall exist that, as to each count, the inventors made their invention in the chronological order of the earlier of their [filing dates or] effective filing dates. The burden of proof shall be upon a party who contends otherwise.

c(b) In an interference involving copending applications or involving a patent and an application having an effective filing date on or before the date the patent issued, a junior party shall have the burden of establishing priority by a preponderance of the evidence.

(c) In an interference involving an application and a patent and where the effective filing date of the application is after the date the patent issued, a junior party shall have the burden of establishing priority by clear and convincing evidence.b

§ 1.658 Final decision.

(a) After final hearing, the Board shall enter a decision resolving the issues raised at final hearing. The decision may (1) enter judgment, in whole or in part, (2) remand the interference to an cadministrative patent judgeb [examiner-in-chief] for further proceedings, or (3) take further action not inconsistent with law. A judgment as to a count shall state whether or not each party is entitled to a patent containing the claims in the party's patent or application which correspond to the count. When the Board enters a decision awarding judgment as to all counts, the decision shall be regarded as a final decision cfor the purpose of judicial review (35 U.S.C. 141-144, 146) unless a request for reconsideration under paragraph (b) of this section is timely filedb.

(b) Any request for reconsideration of a decision under paragraph (a) of this section shall be filed within one month after the date of the decision. The request for reconsideration shall specify with particularity the points believed to have been misapprehended or overlooked in rendering the decision. 55. Section 1.660 is proposed to be amended by adding paragraph (e) to read as follows:

§ 1.660 Notice of reexamination, reissue, protest or litigation.

* * * * *

c(e) The notice required by this section is designed to assist the administrative patent judge and the Board in efficiently handling interference cases. Failure of a party to comply with the provisions of this section may result in sanctions under § 1.616. Knowledge by, or notice to, an employee of the Office other than an employee of the Board, of the existence of the reexamination, application for reissue, protest, or litigation shall not be sufficient. The notice contemplated by this section is notice addressed specifically to an administrative patent judge or the Board.b

The filing by ca partyb [an applicant or patentee] of a written disclaimer of the invention defined by a count, concession of priority or unpatentability of the subject matter of a count, abandonment of the invention defined by a count, or abandonment of the contest as to a count will be treated as a request for entry of an adverse judgment against the applicant or patentee as to all claims which correspond to the count. Abandonment of an application [by an applicant], other than an [applicant] capplicationb for reissue having a claim of the patent sought to be reissued involved in the interference, will be treated as a request for entry of an adverse judgment against the applicant as to all claims corresponding to all counts. Upon the filing by a party of a request for entry of an adverse judgment, the Board may enter judgment against the party.

(b) If a patentee involved in an interference files an application for reissue during the interference and cthe reissue application does not include a claim that corresponds to a countb [omits all claims of the patent corresponding to the counts of the interference for the purpose of avoiding the interference], judgment may be entered against the patentee. A patentee who files an application for reissue cwhich includes a claim that corresponds to a countb [other than for the purpose of avoiding the interference] shall c, in addition to complying with the provisions of § 1.660(b),b timely file a preliminary motion under § 1.633(h) or show good cause why the motion could not have been timely filed or would not be appropriate.

Unless entered by order of an cadministrative patent judgeb [examiner-in-chief], amendments presented during the interference shall not be entered, but may be subsequently presented by the applicant subject to the provisions of this subpart provided prosecution of the application is not otherwise closed.

(b) After judgment, the application of any party may be held subject to further examination, including an interference with another application.

(b) [A party wishing to take the testimony of a witness whose testimony will not be compelled under 35 U.S.C. 24 may elect to present the testimony of the witness by affidavit or deposition.] A party [electing to present] cpresentingb testimony of a witness by affidavit shall, prior to the [close of the party's relevant testimony period, file and serve] ctime set by the administrative patent judge for serving affidavits, file a copy of theb[an] affidavit [of the witness or, where appropriate, a notice under § 1.671(e). To facilitate preparation of the record (§ 1.653 (g) and (h)), a party should file an affidavit on paper which is 81/2 by 11 inches (21.8 by 27.9 cm)] . cIf the affidavit relates to a party's case-in-chief, it shall be filed no later than the date set by an administrative patent judge for the party to file affidavits for its case-in-chief. If the affidavit relates to a party's case-in-rebuttal, it shall be filed no later than the date set by an administrative patent judge for the party to file affidavits for its case-in-rebuttal.b A party shall not be entitled to rely on any document referred to in the affidavit unless a copy of the document is filed with the affidavit. A party shall not be entitled to rely on any thing mentioned in the affidavit unless the opponent is given reasonable access to the thing. A thing is something other than a document. cThe pages of affidavits filed under this paragraph and of any other testimony filed therewith under §§ 1.683(a) and 1.688(a) shall be given sequential numbers which shall also serve as the record page numbers for the affidavits and other testimony in the party's record to be filed under § 1.653. An opponent that fails to challenge the admissibility of the evidence contained in or submitted with an affidavit on a ground that could have been raised in a timely objection under this paragraph will not be entitled to move under § 1.656(h) to suppress the evidence on that ground. If an opponent timely files objections, the party may, within 20 days of the due date for filing objections, file supplemental affidavits and supplemental official records and printed publications to overcome the objections. No objection to the admissibility of the supplemental evidence shall be made, except as provided by § 1.656(h). Any redirect and recross shall take place at the deposition. At any deposition for the purpose of cross-examination of a witness [whose testimony is presented by affidavit], the party shall not be entitled to rely on any document or thing not mentioned in one or more of the affidavits filed under [this paragraph] cparagraphs (b) and (c) of this sections,b except to the extent necessary to conduct proper redirect. [A party electing to present testimony of a witness by deposition shall notice a deposition of the witness under § 1.673(a).] The party who gives notice of a deposition shall be responsible cfor providing a translator if the witness does not testify in English,b for obtaining a court reporter and for filing a certified transcript of the deposition as required by § 1.676. cWithin 45 days of the close of the period for taking cross-examination, the party shall serve (but not file) a copy of each transcript on each opponent together with copies of any additional documentary exhibits identified by the witness during the deposition. The pages of the transcripts served under this paragraph shall be sequentially numbered beginning with the number following the last page number of the party's supplemental affidavits submitted under paragraph (c) of this section. c(f)b [(d)] cWhen a deposition is authorized underb [Notwithstanding the provisions of] this subpart, if the parties agree in writing, ctheb[a]deposition may be taken before any person authorized to administer oaths, at any place, upon any notice, and in any manner, and when so taken may be used like other depositions.

c(g)b [(e)] If the parties agree in writing, the testimony of any witness may be submitted in the form of an affidavit without opportunity for cross-examination. The affidavit of the witness shall be filed in the Patent and Trademark Office.

c(h)b [(f)] If the parties agree in writing, testimony may be submitted in the form of an agreed statement setting forth: (1) How a particular witness would testify if called or (2) the facts in the case of one or more of the parties. Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs have both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.
